Item No: 25

County of Orange Report on Grant Applications/Awards

The Grants Report is a condensed list of grant requests by County Agencies/Departments that allows the Board of Supervisors to discuss and approve grant submittals in one motion at a Board meeting. County policy dictates that the Board of Supervisors must approve all grant applications prior to submittal to the grantor. This applies to grants of all amounts, as well as to new grants and those that have been received by the County for many years as part of an ongoing grant. Receipt of grants $50,000 or less is delegated to the County Executive Officer. Grant awards greater than $50,000 must be presented to the Board of Supervisors for receipt of funds. This report allows for better tracking of county grant requests, the success rate of our grants, and monitoring of County's grants activities. It also serves to inform Orange County's Sacramento and Washington, D.C. advocates of County grant activities involving the State or Federal Governments.

On July 18, 2023, the Board of Supervisors will consider the following actions:

RECOMMENDED ACTION(S)

1. Approve Amendment No. 1 to renew the Contract with Cepheid for GeneXpert Equipment Calibration Services, in an amount not to exceed $59,385, for the term of August 1, 2023, through July 31, 2026, for a revised cumulative contract total amount not to exceed $95,664.

2. Authorize the County Procurement Officer or Deputized designee to execute Amendment No. 1 to Contract with Cepheid as referenced in the Recommended Action above.

SUMMARY:

Approval of Amendment No. 1 to the Contract for GeneXpert Equipment Calibration Services will allow for continued maintenance and calibration of the GeneXpert instrument in the Public Health Laboratory allowing continuation of testing for pathogenic bacteria and viruses for public health and safety.

BACKGROUND INFORMATION:

The GeneXpert system is used by the Orange County Public Health Laboratory (OCPHL) for direct detection of pathogenic bacteria and viruses, which includes *Mycobacterium tuberculosis* (MTB)/resistance to rifampin (RIF), SARS-CoV-2 (COVID-19), influenza virus and Respiratory Syncytial virus (RSV). The SARS-CoV-2, influenza and RSV GeneXpert test kits, used by the Virology section of OCPHL, are utilized for priority specimen testing as determined by the Communicable Disease Control Department with results available in about 40 minutes.

The GeneXpert system provides rapid testing of *Mycobacterium tuberculosis complex* (the bacterium that causes Tuberculosis (TB)) and rifampin drug resistance using the GeneXpert MTB/RIF test kits. The GeneXpert MTB/RIF test provides results within two hours, which is critical for patient care and TB control. Without the GeneXpert system, the clinicians would have to wait three to eight weeks for results, which can greatly impact patient care. OCPHL has been performing the GeneXpert MTB/RIF assay since 2011, when the GeneXpert system was first purchased. There is high demand for this test by Pulmonary Disease Services (PDS) and other clients. The GeneXpert is used to test over 90 percent of the specimens received for TB testing. In 2022 alone, 809 MTB/RIF tests were performed using the GeneXpert. PDS relies on the quick result turnaround to determine patient treatment, care and for contact tracing to prevent the spread of TB. In addition to TB detection, rapid detection of rifampin resistance is critical in identifying multiple drug resistant TB.

The Contract is a Sole Source service contract as Cepheid is the only authorized provider of service for GeneXpert systems. The original contract was executed under Deputy Purchasing Agent authority. The proposed Amendment is to renew the contract for three years. Maintenance, repair and calibration service of the existing instrument in OCPHL is required to ensure accurate and quality results. Proper maintenance of the equipment is required under the Clinical Laboratory Improvement Amendments (CLIA) 5.1 requirement for CLIA accredited laboratories.

The contract is being submitted for the Board's approval less than 30 days prior to the start of the renewal as the Health Care Agency (HCA) was working closely with the vendor to solidify the details of the maintenance and calibration for these crucial instruments for conducting testing at OCPHL.

This Contract does not currently include subcontractors or pass through to other providers. See Attachment C for Contract Summary Form.

The Contractor's performance has been confirmed as satisfactory. HCA has verified there are no concerns that must be addressed with respect to Contractor's ownership/name, litigation status or conflicts with County interests. The Orange County Preference Policy is not applicable to this contract award.

HCA requests that the Board approve Amendment No. 1 to the Contract with Cepheid as referenced in the Recommended Actions.

FINANCIAL IMPACT:

Appropriations for this Amendment are included in Budget Control 042 FY 2023-24 Budget and will be included in the budgeting process for future years.

The Contract includes provisions allowing HCA to terminate the Contract, reduce the level of services, and/or renegotiate the levels of services provided, as necessary. This includes a notice that allows HCA adequate time to transition or terminate services.

County shall notify Contractor in writing of changes in the insurance requirements. If Contractor does not deposit copies of acceptable Certificates of Insurance and endorsements with County incorporating such changes within thirty (30) days of receipt of such notice, this Contract may be in breach without further notice to Contractor, and County shall be entitled to all legal remedies.

County reserves the right to immediately terminate the Contract in the event the County determines that the assignee is not qualified or is otherwise unacceptable to the County for the provision of services under the Contract.

In addition, Contractor has the duty to notify the County in writing of any change in the Contractor's status with respect to name changes that do not require an assignment of the Contract. The Contractor is also obligated to notify the County in writing if the Contractor becomes a party to any litigation against the County, or a party to litigation that may reasonably affect the Contractor's performance under the Contract, as well as any potential conflicts of interest between Contractor and County that may arise prior to or during the period of Contract performance. While Contractor will be required to provide this information without prompting from the County any time there is a change in Contractor's name, conflict of interest or litigation status, Contractor must also provide an update to the County of its status in these areas whenever requested by the County.

The Contractor shall exercise reasonable care and diligence to prevent any actions or conditions that could result in a conflict with County interests. In addition to the Contractor, this obligation shall apply to the Contractor's employees, agents, and subcontractors associated with the provision of goods and services provided under this Contract. The Contractor's efforts shall include, but not be limited to establishing rules and procedures preventing its employees, agents, and subcontractors from providing or offering gifts, entertainment, payments, loans or other considerations which could be deemed to influence or appear to influence County staff or elected officers in the performance of their duties.

Contractor acknowledges that County is relying on Contractor to ensure such compliance, and pursuant to the requirements of paragraph "Z" below, Contractor agrees that it shall defend, indemnify and hold County and County Indemnitees harmless from all liability, damages, costs and expenses arising from or related to a violation of such laws.

W. **Attorney Fees:** In any action or proceeding to enforce or interpret any provision of this Contract, each party shall bear their own attorney's fees, costs and expenses.

X. **Interpretation:** This Contract has been negotiated at arm's length and between persons sophisticated and knowledgeable in the matters dealt with in this Contract. In addition, each party had been represented by experienced and knowledgeable independent legal counsel of their own choosing or has knowingly declined to seek such counsel despite being encouraged and given the opportunity to do so. Each party further acknowledges that they have not been influenced to any extent whatsoever in executing this Contract by any other party hereto or by any person representing them, or both. Accordingly, any rule or law (including California Civil Code Section 1654) or legal decision that would require interpretation of any ambiguities in this Contract against the party that has drafted it is not applicable and is waived. The provisions of this Contract shall be interpreted in a reasonable manner to effect the purpose of the parties and this Contract.

Y. **Employee Eligibility Verification:** The Contractor warrants that it fully complies with all Federal and State statutes and regulations regarding the employment of aliens and others and that all its employees performing work under this Contract meet the citizenship or alien status requirement set forth in Federal statutes and regulations. The Contractor shall retain all such documentation for all covered employees for the period prescribed by the law. The Contractor shall indemnify, defend with counsel approved in writing by County, and hold harmless, the County, its agents, officers, and employees from employer sanctions and any other liability which may be assessed against the Contractor or the County or both in connection with any alleged violation of any Federal or State statutes or regulations pertaining to the eligibility for employment of any persons performing work under this Contract.

Neither party shall request a jury apportionment.

AA. **Audits/Inspections:** Contractor agrees to permit the County's Auditor-Controller or the Auditor-Controller's authorized representative (including auditors from a private auditing firm hired by the County) access during normal working hours to all books, accounts, records, reports, files, financial records, supporting documentation, including payroll and accounts payable/receivable records, and other papers or property of Contractor for the purpose of auditing or inspecting any aspect of performance under this Contract. Contractor agrees to maintain such records for possible audit for a minimum of three years after final payment, unless a longer period of records retention is stipulated under this Contract or by law. Contractor agrees to allow interviews of any employees or others who might reasonably have information related to such records. Further, Contractor agrees to include a similar right to the County to audit records and interview staff of any subcontractor related to performance of this Contract.

Should the Contractor cease to exist as a legal entity, the Contractor's records pertaining to this agreement shall be forwarded to the County's project manager.

If such approval, funding or appropriations are not forthcoming, or are otherwise limited, County may immediately terminate or modify this Contract without penalty.

ATTACHMENT C

CEPHEID TERMS AND CONDITIONS

1. This Agreement entitles Customer to preferential consideration for scheduling service for GeneXpert and GeneXpert Infinity systems over service requests from customers who are not covered by a service agreement. As a condition of receiving the Services described herein, Customer shall make reasonable efforts to provide Cepheid with secure internet access to the GeneXpert system(s) to assess the need for repair, provide calibration, and provide software updates. If Customer elects not to provide such access, Cepheid may withhold service or charge Customer for any additional costs incurred by Cepheid that would have been avoided had internet access been provided.

2. All system repairs under this Agreement will be performed by Cepheid and/or a third party service provider approved by Cepheid.

3. Uptime Guarantee and definition of Downtime

   Cepheid offers uptime guarantees with the Advantage and Advantage Plus programs. The uptime guarantee is 98%.

   For any calendar quarter during the service agreement Cepheid guarantees that any GeneXpert system covered by this Agreement will maintain the quoted uptime. The uptime will be calculated using the following formula: Uptime= ((T-TNF) x l00)/T

   where T is the total number of hours that the system is typically used per quarter (determined by multiplying the number of hours per day that the system is typically in use by 13 weeks in a quarter) and TNF is the number of hours that the system was unable to run tests during time T. If the system is unable to run tests, the system will be considered down. Downtime scheduled for preventative maintenance or any other scheduled event, including downtime scheduled by the customer, will not be included in the calculation of TNF.

   Customer will calculate uptime after each calendar quarter. If uptime is less than the guaranteed value, the customer will be compensated an additional week of coverage for a maximum of 1 week per calendar quarter.

4. At Cepheid's sole discretion, parts may be either repaired or replaced with new or reconditioned parts from an Authorized Cepheid Service Center. Parts for which replacements have been provided by Cepheid shall, at Cepheid's option, become the property of Cepheid. Cepheid reserves the right to determine conclusively what repairs are performed on the system.

5. GeneXpert systems or components thereof must not be returned to Cepheid without prior arrangement with Cepheid. Cepheid Service will issue a Return Material Authorization (RMA) number, which must be obtained prior to shipping any item to Cepheid. If a system needs to be returned to Cepheid for repair, Cepheid will offer a loaner system free of charge.

6. Prior to the arrival of a Cepheid Service Representative or shipment of a system or component thereof to the Cepheid Service Center, Customer must ensure that the system is safe to handle according to Cepheid's procedures described in the applicable Operator Manual. Customer must inform Cepheid of any hazards which may be encountered by Cepheid during the service visit. Customer must provide a completed "Clearance Certificate" from Cepheid with any item shipped to Cepheid. The Clearance Certificate must list all potential biohazards that have been analyzed on the system or to which the system has been exposed.

7. Customer must not attempt to repair or remove parts during the duration of this Agreement without prior written approval from Cepheid. Any such attempt may invalidate this Agreement and/or result in additional Time and Material charges to Customer.

8. Cepheid will provide telephone technical support through its Technical Support Call Center. Technical Support personnel are available 24hrs per day 7 days per week. 1-888-838-3222. Holiday coverage is from 10:00 am - 6:00 pm (EST) for January 1st, the 4th Thursday in November, and December 25th.

9. Cepheid will use reasonable efforts to schedule a visit to occur within 2 business days after Technical Support determines the need for on-site service. Advantage Plus Customers, will be prioritized for service on the next available day from Technical Support determining the need for on-site service.

10. This Agreement covers only defects arising from normal usage and does not cover malfunctions or failures resulting from: operation in an unsuitable environment, use of the system for purposes other than that for which it was designed, unauthorized attachments, acts of nature, unusual physical or electrical stress, modifications or repairs done by other than a Cepheid or Cepheid-authorized service provider, or misuse, abuse or neglect of the system.

11. If this Agreement is entered into after expiration of the original system warranty or expiration or termination of a previous Service Agreement, Cepheid may require a re-instatement inspection before any system(s) can be placed under this Agreement. Cepheid reserves the right to refuse acceptance of this Agreement for any system which, in Cepheid's opinion, has not been properly maintained. Cepheid's acceptance of this Agreement may be further contingent upon the completion of repairs or maintenance as required by such inspection. Customer shall pay any re-instatement inspection fee, and the cost of any repairs or maintenance required to bring the system to a level of operation acceptable to Cepheid, as a condition of receiving any benefits under this Agreement.

12. All repair work completed by Cepheid's Service Representatives is warranted to have been performed in accordance with industry standards for the greater of 90 days or for the duration of this Agreement. All replacement parts used by Cepheid are warranted to be free from defects in workmanship.

13. Except as stated in the immediately preceding paragraph above, Cepheid disclaims all warranties, express or implied, including the implied warranties of merchantability and fitness for a particular purpose.

14. If Cepheid does not perform the services provided for in this Agreement, Customer's sole remedy shall be return of any fees or charges paid by Customer in connection with this Agreement.

15. Cepheid shall not be liable for any incidental or consequential damages (including lost profits) for breach of any of its obligations under this Agreement, including breach of warranty. Cepheid's total liability under this Agreement shall not exceed the total payments made by Customer to Cepheid under this Agreement.

16. Service under this Agreement shall not be transferable and shall be binding on the Parties hereto, their successors and assigns.

Leadership Statement

I work to cultivate equity in places it formerly did not exist. I use social justice, anti-racism, and a decolonization framework to foster healthy workplaces in which empathy and cultural competence are emphasized. Thus, people of a variety of backgrounds and experiences can thrive.

Active listening is at the core of my work. I focus on the non-Anglo American non-cisgender non-heteronormative voices in the room, those who are traditionally underrepresented, silenced, or made to feel as though they do not belong.

Standing for "Belonging, Representation, Accessibility, and Visionary Equity, BRAVE is Concentric by Ginkgo's diversity and inclusion group. We worked to ensure belonging and representation through championing biosecurity, diversity, and health justice. As co-chair, I facilitated conversations and ensured the implementation of strategies to advance BRAVE.

Medicare for All Leadership School Participant
National Nurses United | 2022

As a part of National Nurses United's second annual Medicare for All Leadership course, I work to promote both health equity and racial justice by advocating for a universal healthcare system that does not turn anyone away based on ability to pay. At the end of this cohort, I will put on an event to encourage folks to join the fight for health equity.

4. SUMMARY:

Approval of the County construction to permanent loan, commitment of 62 Project-Based Housing Choice Vouchers and subordination of the County loan at construction and permanent financing to senior debt for HB Oasis will help facilitate long-term financing needs for HB Oasis and support the production of supportive housing in Orange County.

BACKGROUND INFORMATION:

On February 28, 2023, the Board of Supervisors (Board) approved the recommended changes in policy and process for the 2023 Supportive Housing Notice of Funding Availability (2023 NOFA) and authorized the OC Community Resources (OCCR) Director or designee to issue the 2023 NOFA making up to $67.1 million in funding and up to 210 Project-Based Housing Choice Vouchers (PBVs) available for the development of extremely low-income housing and return to the Board for funding commitments to individual projects.

On December 14, 2021, the Board approved submittal of an application for Homekey Program funding with co-applicants and Developers, American Family Housing (AFH) and National Community Renaissance of California (National CORE), for HB Oasis (Development) as an interim to permanent housing project located at 17251 Beach Boulevard in the City of Huntington Beach and a commitment of up to $5 million in funding for interim housing operations. The County of Orange (County) received a $17 million Homekey Program award for acquisition, construction/rehabilitation and operations of the property. The County acquired the 64-room motel with the Homekey funds and ground leased it to the Developers and has been operating as interim housing since 2022. The Homekey Program requires conversion of the interim housing to permanent housing within five years, and the Developers are on target with meeting this timeframe.

AFH and National CORE, as Developers and co-applicants, responded to the 2023 NOFA with a funding application for the Development to finance the conversion of the 63-room motel into 62 supportive housing units restricted at 30 percent area median income (AMI) and 1 one-bedroom manager's unit, for a total of 63 units.

In addition to being a co-developer, AFH will also provide social and supportive services to the tenants at the Development as the lead service provider after the conversion to permanent housing. AFH owns over 50 affordable rental housing properties in three Southern California counties: Orange, Los Angeles and San Bernardino. AFH developed a number of affordable housing developments in Orange County including Casa Paloma, a 71-unit community in Midway City, unincorporated County, that was completed in September 2022. AFH properties offer more than 250 units of housing that ensure the provision of safe, affordable homes for adults and families.

National CORE has been in operation for more than 30 years and has participated in the development of more than 9,000 affordable homes in 85 developments throughout California, Texas, Arkansas and Florida, with 7,000 of those units located in California. National CORE recently completed construction on Legacy Square, a 93-unit community in Santa Ana, in March 2023. National CORE, which will also serve as General Contractor and the property management company, has over two decades of property management experience and is consistently ranked as a top 50 apartment management company by the National Apartment Association.

The Development will provide for an attractive, supportive rental housing community with amenities including outdoor common areas, landscape improvements to enhance resident engagement opportunities and amenities where previously motel patron parking stalls were located. The Development will also include a newly constructed approximately 2,300 square foot single-story building which will be located toward the main entrance of the property nearest Beach Boulevard. The new building will provide additional interior common amenity space and programming space for case management offices, multi-purpose activities, supportive services and classes for residents such as counseling, financial literacy, healthy living education and general health and wellness class.

The City of Huntington Beach also provided $2.4 million in Low- and Moderate-Income Housing Asset Funds for the rehabilitation and development of the project and $1,810,000 in HOME Investment Partnership-American Rescue Plan Act (HOME-ARP) funds for Supportive Services.

Upon approval of the County loan and PBVs request, the Developers intends on applying for 9 percent tax credits by the August 8, 2023, application deadline.

Permanent Financing and PBVs

The Developers are requesting a construction to permanent loan under the 2023 NOFA in the amount of $5,121,130 to be available to the project. The County loan will be subordinate to financing as outlined in the financial summary below. To encumber funds, OCCR intends to close and fund the loan at construction closing. OCCR is requesting authorization to subordinate to additional senior debt up to 100 percent of the cumulative loan-to-value based on the as-built appraised market value, if necessary, based on any future changes in project financing. In determining the maximum additional senior debt to which the County will subordinate its loan, OCCR will calculate the senior debt plus the County loan and subtract that total from the current (within last six months) as-built appraised market value. If the current as-built appraised market value exceeds the cumulative senior debt plus the County loan, the County may subordinate to additional senior debt, if necessary, for the viability of the project.

Additionally, the Developers are requesting 62 PBVs to be available to the Development after construction is completed and a Certificate of Occupancy is issued. These 62 PBVs will be guaranteed for 20 years, consistent with U.S. Department of Housing and Urban Development (HUD) regulations, and will provide rental subsidies to 62 of the studio units restricted to 30 percent AMI by County and/or state funding sources.

Below are the updated financial summary highlights of the Construction and Permanent Financing phase of the Development:

County Loan Terms:

Construction to Permanent Loan:	Up to $5,121,130
Interest Rate:	3 percent simple
Term:	55 years from Qualified Project Period
Security:	Second Deed of Trust
Payments:	Residual Receipts per the 2023 NOFA

The County will record rent and occupancy restrictions on 62 studio units for individuals experiencing homelessness earning at or below 30 percent AMI for a period of 55 years via a regulatory agreement. The specific rent and occupancy restrictions may ultimately change based on the final financing structure of the Development.

Funding of the County loan and commitment of the PBVs are contingent upon the following:

1. Completion and approval of California Environmental Quality Act (CEQA) and National Environmental Policy Act (NEPA) as applicable.
2. Evidence of commitment of all construction and permanent financing sources, including tax credit award.
3. Receipt and approval of final project development costs and revised final development proforma and financing plan (including cash flow analysis) to reflect all final funding approvals.
4. Formation of the Limited Partnership.

The Project Review Advisory Panel reviewed staff recommendation to pass this project on underwriting at their July 13, 2023, meeting.

The supportive housing units in this development are part of the 2,396 permanent supporting housing units identified in the Housing Funding Strategy 2022 Update to address housing needs for individuals and households experiencing homelessness. As such, these 62 units of supportive housing units will contribute to the progress of this effort and provide much needed supportive housing in the near future. Additionally, the 62 units of supportive housing units will follow the best practices, guiding principles, and commitments of the Homeless Service System Pillars Report which was created by the Commission to End Homelessness and accepted by the Board on October 4, 2022.

Compliance with CEQA: This action is not a project within the meaning of CEQA Guidelines Section 15378 and is therefore not subject to CEQA, since it does not have the potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment. The approval of this agenda item does not commit the County to a definite course of action in regard to a project since it is for approval of a County loan, commitment of 62 PBVs, subordination of the County loan to senior debt for the Development and to allow the County's continued support of the production of supportive housing in Orange County. This proposed activity is therefore not subject to CEQA. Any future action connected to this approval that constitutes a project will be reviewed for compliance with CEQA.

Compliance with NEPA: Pursuant to the U.S. Department of Treasury, Interim Final Rule Frequently Asked Questions for SLFRF Program, the National Environmental Policy Act (NEPA) does not apply to Treasury's administration of the SLFRF program. Per 24 Code of Federal Regulations Part 58, an Environmental Assessment of the project is currently being conducted and, upon completion, a Request for Release of Funds will be sent to HUD.

FINANCIAL IMPACT:

This loan commitment will only affect the notes receivable balance sheet accounts of the fund. Per budgeting practice, the loan commitment is not built into the fiscal year appropriations budget process. The up to $5,121,130 loan, which will be funded at construction loan closing anticipated in April 2024 (Fiscal Year 2023-24), will be funded with 100 percent Federal HOME Investment Partnerships Program (Home) Funds, HOME American Rescue Plan Act (HOME-ARPA) Funds and/or American Rescue Plan Act Coronavirus State and Local Recovery Funds (ARPA-SLFRF) Revenue Loss in Fund 15G and/or Mental Health Services Act (MHSA) in Fund 12A.

(a) For the purposes of this part, the following definitions supplement the uniform terminology provided in 40 CFR part 1508:

(1) ***Activity*** means an action that a grantee or recipient puts forth as part of an assisted project, regardless of whether its cost is to be borne by the HUD assistance or is an eligible expense under the HUD assistance program.

(2) ***Certifying Officer*** means the official who is authorized to execute the Request for Release of Funds and Certification and has the legal capacity to carry out the responsibilities of § 58.13.

(3) ***Extraordinary Circumstances*** means a situation in which an environmental assessment (EA) or environmental impact statement (EIS) is not normally required, but due to unusual conditions, an EA or EIS is appropriate. Indicators of unusual conditions are:

(i) Actions that are unique or without precedent;

(ii) Actions that are substantially similar to those that normally require an EIS;

(iii) Actions that are likely to alter existing HUD policy or HUD mandates; or

(iv) Actions that, due to unusual physical conditions on the site or in the vicinity, have the potential for a significant impact on the environment or in which the environment could have a significant impact on users of the facility.

(4) ***Project*** means an activity, or a group of integrally related activities, designed by the recipient to accomplish, in whole or in part, a specific objective.

(5) ***Recipient*** means any of the following entities, when they are eligible recipients or grantees under a program listed in § 58.1(b):

(i) A State that does not distribute HUD assistance under the program to a unit of general local government;

(ii) Guam, the Northern Mariana Islands, the Virgin Islands, American Samoa, and Palau;

(iii) A unit of general local government;

(iv) An Indian tribe;

(v) With respect to Public Housing Programs under § 58.1(b)(6)(i), fiscal year 1999 and prior HOPE VI grants under § 58.1(b)(6)(ii) or Section 8 assistance under § 58.1(b)(6)(iii), a public housing agency;

(vii) With respect to the FHA Multifamily Housing Finance Agency Program under 58.1(b)(8), a qualified housing finance agency;

(viii) With respect to the Self-Help Homeownership Opportunity Program under § 58.1(b)(9), any direct grantee of HUD.

(ix)

(A) With respect to NAHASDA assistance under § 58.1(b)(10), the Indian tribe or the Department of Hawaiian Home Lands; and

(B) With respect to the Section 184 Indian Housing Loan Guarantee program under § 58.1(b)(11), the Indian tribe.

(x) With respect to the Shelter Plus Care and Supportive Housing Programs under § 58.1(b)(3)(ii), nonprofit organizations and other entities.

(6) ***Release of funds.*** In the case of the FHA Multifamily Housing Finance Agency Program under § 58.1(b)(8), Release of Funds, as used in this part, refers to HUD issuance of a firm approval letter, and Request for Release of Funds refers to a recipient's request for a firm approval letter. In the case

of the Section 184 Indian Housing Loan Guarantee program under § 58.1(b)(11), Release of Funds refers to HUD's issuance of a commitment to guarantee a loan, or if there is no commitment, HUD's issuance of a certificate of guarantee.

(7) ***Responsible Entity.*** Responsible Entity means:

(i) With respect to environmental responsibilities under programs listed in § 58.1(b)(1), (2), (3)(i), (4), and (5), a recipient under the program.

(ii) With respect to environmental responsibilities under the programs listed in § 58.1(b)(3)(ii) and (6) through (12), a state, unit of general local government, Indian tribe or Alaska Native Village, or the Department of Hawaiian Home Lands, when it is the recipient under the program. Under the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4101 *et seq.*) listed in § 58.1(b)(10)(i), the Indian tribe is the responsible entity whether or not a Tribally Designated Housing Entity is authorized to receive grant amounts on behalf of the tribe. The Indian tribe is also the responsible entity under the Section 184 Indian Housing Loan Guarantee program listed in § 58.1(b)(11). Regional Corporations in Alaska are considered Indian tribes in this part. Non-recipient responsible entities are designated as follows:

(A) For qualified housing finance agencies, the State or a unit of general local government, Indian tribe or Alaska native village whose jurisdiction contains the project site;

(B) For public housing agencies, the unit of general local government within which the project is located that exercises land use responsibility, or if HUD determines this infeasible, the county, or if HUD determines this infeasible, the State;

(C) For non-profit organizations and other entities, the unit of general local government, Indian tribe or Alaska native village within which the project is located that exercises land use responsibility, or if HUD determines this infeasible, the county, or if HUD determines this infeasible, the State;

(8) ***Unit Density*** refers to a change in the number of dwelling units. Where a threshold is identified as a percentage change in density that triggers review requirements, no distinction is made between an increase or a decrease in density.

(9) ***Tiering*** means the evaluation of an action or an activity at various points in the development process as a proposal or event becomes ripe for an Environment Assessment or Review.

(10) ***Vacant Building*** means a habitable structure that has been vacant for more than one year.

(b) The following abbreviations are used throughout this part:

§ 58.4 Assumption authority.

(a) ***Assumption authority for responsible entities: General.*** Responsible entities shall assume the responsibility for environmental review, decision-making, and action that would otherwise apply to HUD under NEPA and other provisions of law that further the purposes of NEPA, as specified in § 58.5. Responsible entities that receive assistance directly from HUD assume these responsibilities by execution of a grant agreement with HUD and/or a legally binding document such as the certification contained on HUD Form 7015.15, certifying to the assumption of environmental responsibilities. When a State distributes funds to a responsible entity, the State must provide for appropriate procedures by which these responsible entities will evidence their assumption of environmental responsibilities.

(b) ***Particular responsibilities of the States.***

(1) States are recipients for purposes of directly undertaking a State project and must assume the environmental review responsibilities for the State's activities and those of any non-governmental entity that may participate in the project. In this case, the State must submit the certification and RROF to HUD for approval.

(2) States must exercise HUD's responsibilities in accordance with § 58.18, with respect to approval of a unit of local government's environmental certification and RROF for a HUD assisted project funded through the state. Approval by the state of a unit of local government's certification and RROF satisfies the Secretary's responsibilities under NEPA and the related laws cited in § 58.5.

(c) ***Particular responsibilities of Indian tribes.*** An Indian tribe may, but is not required to, assume responsibilities for environmental review, decision-making and action for programs authorized by the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4101 *et seq.*) (other than title VIII) or section 184 of the Housing and Community Development Act of 1992 (12 U.S.C. 1715z-13a). The tribe must make a separate decision regarding assumption of responsibilities for each of these Acts and communicate that decision in writing to HUD. If the tribe assumes these responsibilities, the requirements of this part shall apply. If a tribe formally declines assumption of these responsibilities, they are retained by HUD and the provisions of part 50 of this title apply.

(ii) The environmental review of multifamily housing with five or more dwelling units (including leasing), or non-residential property, must include the evaluation of previous uses of the site or other evidence of contamination on or near the site, to ensure that the occupants of proposed sites are not adversely affected by any of the hazards listed in paragraph (i)(2)(i) of this section.

(iii) Particular attention should be given to any proposed site on or in the general proximity of such areas as dumps, landfills, industrial sites, or other locations that contain, or may have contained, hazardous wastes.

§ 58.6 Other requirements.

In addition to the duties under the laws and authorities specified in § 58.5 for assumption by the responsible entity under the laws cited in § 58.1(b), the responsible entity must comply with the following requirements. Applicability of the following requirements does not trigger the certification and release of funds procedure under this part or preclude exemption of an activity under § 58.34(a)(12) and/or the applicability of § 58.35(b). However, the responsible entity remains responsible for addressing the following requirements in its ERR and meeting these requirements, where applicable, regardless of whether the activity is exempt under § 58.34 or categorically excluded under § 58.35(a) or (b).

(a)

(1) Under the Flood Disaster Protection Act of 1973, as amended (42 U.S.C. 4001-4128), Federal financial assistance for acquisition and construction purposes (including rehabilitation) may not be used in an area identified by the Federal Emergency Management Agency (FEMA) as having special flood hazards, unless:

(i) The community in which the area is situated is participating in the National Flood Insurance Program (see 44 CFR parts 59 through 79), or less than one year has passed since the FEMA notification regarding such hazards; and

(ii) Where the community is participating in the National Flood Insurance Program, flood insurance protection is to be obtained as a condition of the approval of financial assistance to the property owner.

(2) Where the community is participating in the National Flood Insurance Program and the recipient provides financial assistance for acquisition or construction purposes (including rehabilitation) for property located in an area identified by FEMA as having special flood hazards, the responsible entity is responsible for assuring that flood insurance under the National Flood Insurance Program is obtained and maintained.

(3) Paragraph (a) of this section does not apply to Federal formula grants made to a State.

(4) Flood insurance requirements cannot be fulfilled by self-insurance except as authorized by law for assistance to state-owned projects within states approved by the Federal Insurance Administrator consistent with 44 CFR 75.11.

(b) Under section 582 of the National Flood Insurance Reform Act of 1994, 42 U.S.C. 5154a, HUD disaster assistance that is made available in a special flood hazard area may not be used to make a payment (including any loan assistance payment) to a person for repair, replacement or restoration for flood damage to any personal, residential or commercial property if:

(1) The person had previously received Federal flood disaster assistance conditioned on obtaining and maintaining flood insurance; and

(2) The person failed to obtain and maintain flood insurance.

(c) Pursuant to the Coastal Barrier Resources Act, as amended by the Coastal Barrier Improvement Act of 1990 (16 U.S.C. 3501), HUD assistance may not be used for most activities proposed in the Coastal Barrier Resources System.

(d) In all cases involving HUD assistance, subsidy, or insurance for the purchase or sale of an existing property in a Runway Clear Zone or Clear Zone, as defined in 24 CFR part 51, the responsible entity shall advise the buyer that the property is in a runway clear zone or clear zone, what the implications of such a location are, and that there is a possibility that the property may, at a later date, be acquired by the airport operator. The buyer must sign a statement acknowledging receipt of this information.

Subpart B - General Policy: Responsibilities of Responsible Entities

§ 58.10 Basic environmental responsibility.

In accordance with the provisions of law cited in § 58.1(b), except as otherwise provided in § 58.4(c), the responsible entity must assume the environmental responsibilities for projects under programs cited in § 58.1(b). In doing so, the responsible entity must comply with the provisions of NEPA and the CEQ regulations contained in 40 CFR parts 1500 through 1508, including the requirements set forth in this part.

[68 FR 56128, Sept. 29, 2003]

§ 58.11 Legal capacity and performance.

(a) A responsible entity which believes that it does not have the legal capacity to carry out the environmental responsibilities required by this part must contact the appropriate local HUD Office or the State for further instructions. Determinations of legal capacity will be made on a case-by-case basis.

(b) If a public housing, special project, HOPWA, Supportive Housing, Shelter Plus Care, or Self-Help Homeownership Opportunity recipient that is not a responsible entity objects to the non-recipient responsible entity conducting the environmental review on the basis of performance, timing, or compatibility of objectives, HUD will review the facts to determine who will perform the environmental review.

(c) At any time, HUD may reject the use of a responsible entity to conduct the environmental review in a particular case on the basis of performance, timing or compatibility of objectives, or in accordance with § 58.77(d)(1).

(d) If a responsible entity, other than a recipient, objects to performing an environmental review, or if HUD determines that the responsible entity should not perform the environmental review, HUD may designate another responsible entity to conduct the review in accordance with this part or may itself conduct the environmental review in accordance with the provisions of 24 CFR part 50.

[61 FR 19122, Apr. 30, 1996, as amended at 68 FR 56129, Sept. 29, 2003]

§ 58.12 Technical and administrative capacity.

The responsible entity must develop the technical and administrative capability necessary to comply with 40 CFR parts 1500 through 1508 and the requirements of this part.

§ 58.13 Responsibilities of the certifying officer.

Under the terms of the certification required by § 58.71, a responsible entity's certifying officer is the “responsible Federal official” as that term is used in section 102 of NEPA and in statutory provisions cited in § 58.1(b). The Certifying Officer is therefore responsible for all the requirements of section 102 of NEPA and the related provisions in 40 CFR parts 1500 through 1508, and 24 CFR part 58, including the related Federal authorities listed in § 58.5. The Certifying Officer must also:

(a) Represent the responsible entity and be subject to the jurisdiction of the Federal courts. The Certifying Officer will not be represented by the Department of Justice in court; and

(b) Ensure that the responsible entity reviews and comments on all EISs prepared for Federal projects that may have an impact on the recipient's program.

§ 58.14 Interaction with State, Federal and non-Federal entities.

A responsible entity shall consult with appropriate environmental agencies, State, Federal and non-Federal entities and the public in the preparation of an EIS, EA or other environmental reviews undertaken under the related laws and authorities cited in § 58.5 and § 58.6. The responsible entity must also cooperate with other agencies to reduce duplication between NEPA and comparable environmental review requirements of the State (see 40 CFR 1506.2 (b) and (c)). The responsible entity must prepare its EAs and EISs so that they comply with the environmental review requirements of both Federal and State laws unless otherwise specified or provided by law. State, Federal and local agencies may participate or act in a joint lead or cooperating agency capacity in the preparation of joint EISs or joint environmental assessments (see 40 CFR 1501.5(b) and 1501.6). A single EIS or EA may be prepared and adopted by multiple users to the extent that the review addresses the relevant environmental issues and there is a written agreement between the cooperating agencies which sets forth the coordinated and overall responsibilities.

[63 FR 15271, Mar. 30, 1998]

§ 58.15 Tiering.

Responsible entities may tier their environmental reviews and assessments to eliminate repetitive discussions of the same issues at subsequent levels of review. Tiering is appropriate when there is a requirement to evaluate a policy or proposal in the early stages of development or when site-specific analysis or mitigation is not currently feasible and a more narrow or focused analysis is better done at a later date. The site specific review need only reference or summarize the issues addressed in the broader review. The broader review should identify and evaluate those issues ripe for decision and exclude those issues not relevant to the policy, program or project under consideration. The broader review should also establish the policy, standard or process to be followed in the site specific review. The Finding of No Significant Impact (FONSI) with respect to the broader assessment shall include a summary of the assessment and identify the significant issues to be considered in site specific reviews. Subsequent site-specific reviews will not require notices or a Request for Release of Funds unless the Certifying Officer determines that there are unanticipated impacts or impacts not adequately addressed in the prior review. A tiering approach can be used for meeting environmental review requirements in areas designated for special focus in local Consolidated Plans. Local and State Governments are encouraged to use the Consolidated Plan process to facilitate environmental reviews.

§ 58.17 [Reserved]

§ 58.18 Responsibilities of States assuming HUD environmental responsibilities.

States that elect to administer a HUD program shall ensure that the program complies with the provisions of this part. The state must:

(a) Designate the state agency or agencies that will be responsible for carrying out the requirements and administrative responsibilities set forth in subpart H of this part and which will:

(1) Develop a monitoring and enforcement program for post-review actions on environmental reviews and monitor compliance with any environmental conditions included in the award.

(2) Receive public notices, RROFs, and certifications from recipients pursuant to §§ 58.70 and 58.71; accept objections from the public and from other agencies (§ 58.73); and perform other related responsibilities regarding releases of funds.

(b) Fulfill the state role in subpart H relative to the time period set for the receipt and disposition of comments, objections and appeals (if any) on particular projects.

[68 FR 56129, Sept. 29, 2003]

Subpart C - General Policy: Environmental Review Procedures

§ 58.21 Time periods.

All time periods in this part shall be counted in calendar days. The first day of a time period begins at 12:01 a.m. local time on the day following the publication or the mailing and posting date of the notice which initiates the time period.

§ 58.22 Limitations on activities pending clearance.

(a) Neither a recipient nor any participant in the development process, including public or private nonprofit or for-profit entities, or any of their contractors, may commit HUD assistance under a program listed in § 58.1(b) on an activity or project until HUD or the state has approved the recipient's RROF and the related certification from the responsible entity. In addition, until the RROF and the related certification have been approved, neither a recipient nor any participant in the development process may commit non-HUD funds on or undertake an activity or project under a program listed in § 58.1(b) if the activity or project would have an adverse environmental impact or limit the choice of reasonable alternatives.

(b) If a project or activity is exempt under § 58.34, or is categorically excluded (except in extraordinary circumstances) under § 58.35(b), no RROF is required and the recipient may undertake the activity immediately after the responsible entity has documented its determination as required in § 58.34(b) and § 58.35(d), but the recipient must comply with applicable requirements under § 58.6.

(c) If a recipient is considering an application from a prospective subrecipient or beneficiary and is aware that the prospective subrecipient or beneficiary is about to take an action within the jurisdiction of the recipient that is prohibited by paragraph (a) of this section, then the recipient will take appropriate action to ensure that the objectives and procedures of NEPA are achieved.

(d) An option agreement on a proposed site or property is allowable prior to the completion of the environmental review if the option agreement is subject to a determination by the recipient on the desirability of the property for the project as a result of the completion of the environmental review in accordance with this part and the cost of the option is a nominal portion of the purchase price. There is no constraint on the purchase of an option by third parties that have not been selected for HUD funding, have no responsibility for the environmental review and have no say in the approval or disapproval of the project.

(e) ***Self-Help Homeownership Opportunity Program (SHOP).*** In accordance with section 11(d)(2)(A) of the Housing Opportunity Program Extension Act of 1996 (42 U.S.C. 12805 note), an organization, consortium, or affiliate receiving assistance under the SHOP program may advance nongrant funds to acquire land prior to completion of an environmental review and approval of a Request for Release of Funds (RROF) and certification, notwithstanding paragraph (a) of this section. Any advances to acquire land prior to approval of the RROF and certification are made at the risk of the organization, consortium, or affiliate and reimbursement for such advances may depend on the result of the environmental review. This authorization is limited to the SHOP program only and all other forms of HUD assistance are subject to the limitations in paragraph (a) of this section.

(f) ***Relocation.*** Funds may be committed for relocation assistance before the approval of the RROF and related certification for the project provided that the relocation assistance is required by 24 CFR part 42.

[68 FR 56129, Sept. 29, 2003]

§ 58.23 Financial assistance for environmental review.

The costs of environmental reviews, including costs incurred in complying with any of the related laws and authorities cited in § 58.5 and § 58.6, are eligible costs to the extent allowable under the HUD assistance program regulations.

Subpart D - Environmental Review Process: Documentation, Range of Activities, Project Aggregation and Classification

§ 58.30 Environmental review process.

(a) The environmental review process consists of all the actions that a responsible entity must take to determine compliance with this part. The environmental review process includes all the compliance actions needed for other activities and projects that are not assisted by HUD but are aggregated by the responsible entity in accordance with § 58.32.

(b) The environmental review process should begin as soon as a recipient determines the projected use of HUD assistance.

§ 58.32 Project aggregation.

(a) A responsible entity must group together and evaluate as a single project all individual activities which are related either on a geographical or functional basis, or are logical parts of a composite of contemplated actions.

(b) In deciding the most appropriate basis for aggregation when evaluating activities under more than one program, the responsible entity may choose: *functional aggregation* when a specific type of activity (e.g., water improvements) is to take place in several separate locales or jurisdictions; *geographic aggregation* when a mix of dissimilar but related activities is to be concentrated in a fairly specific project area (e.g., a combination of water, sewer and street improvements and economic development activities); or *a combination of aggregation approaches,* which, for various project locations, considers the impacts arising from each functional activity and its interrelationship with other activities.

(c) The purpose of project aggregation is to group together related activities so that the responsible entity can:

(1) Address adequately and analyze, in a single environmental review, the separate and combined impacts of activities that are similar, connected and closely related, or that are dependent upon other activities and actions. (See 40 CFR 1508.25(a)).

(2) Consider reasonable alternative courses of action.

(3) Schedule the activities to resolve conflicts or mitigate the individual, combined and/or cumulative effects.

(4) Prescribe mitigation measures and safeguards including project alternatives and modifications to individual activities.

(d) ***Multi-year project aggregation*** -

(1) ***Release of funds.*** When a recipient's planning and program development provide for activities to be implemented over two or more years, the responsible entity's environmental review should consider the relationship among all component activities of the multi-year project regardless of the source of funds and address and evaluate their cumulative environmental effects. The estimated range of the aggregated activities and the estimated cost of the total project must be listed and described by the responsible entity in the environmental review and included in the RROF. The release of funds will cover the entire project period.

(2) When one or more of the conditions described in § 58.47 exists, the recipient or other responsible entity must re-evaluate the environmental review.

§ 58.33 Emergencies.

(a) In the cases of emergency, disaster or imminent threat to health and safety which warrant the taking of an action with significant environmental impact, the provisions of 40 CFR 1506.11 shall apply.

(b) If funds are needed on an emergency basis and adherence to separate comment periods would prevent the giving of assistance during a Presidentially declared disaster, or during a local emergency that has been declared by the chief elected official of the responsible entity who has proclaimed that there is an immediate need for public action to protect the public safety, the combined Notice of FONSI and Notice of Intent to Request Release of Funds (NOI/RROF) may be disseminated and/or published simultaneously with the submission of the RROF. The combined Notice of FONSI and NOI/RROF shall state that the funds are needed on an emergency basis due to a declared disaster and that the comment periods have been combined. The Notice shall also invite commenters to submit their comments to both HUD and the responsible entity issuing the notice to ensure that these comments will receive full consideration.

[61 FR 19122, Apr. 30, 1996, as amended at 68 FR 56129, Sept. 29, 2003]

§ 58.34 Exempt activities.

(a) Except for the applicable requirements of § 58.6, the responsible entity does not have to comply with the requirements of this part or undertake any environmental review, consultation or other action under NEPA and the other provisions of law or authorities cited in § 58.5 for the activities exempt by this section or projects consisting solely of the following exempt activities:

(1) Environmental and other studies, resource identification and the development of plans and strategies;

(2) Information and financial services;

(3) Administrative and management activities;

(4) Public services that will not have a physical impact or result in any physical changes, including but not limited to services concerned with employment, crime prevention, child care, health, drug abuse, education, counseling, energy conservation and welfare or recreational needs;

(5) Inspections and testing of properties for hazards or defects;

(6) Purchase of insurance;

(7) Purchase of tools;

(8) Engineering or design costs;

(9) Technical assistance and training;

(10) Assistance for temporary or permanent improvements that do not alter environmental conditions and are limited to protection, repair, or restoration activities necessary only to control or arrest the effects from disasters or imminent threats to public safety including those resulting from physical deterioration;

(11) Payment of principal and interest on loans made or obligations guaranteed by HUD;

(12) Any of the categorical exclusions listed in § 58.35(a) provided that there are no circumstances which require compliance with any other Federal laws and authorities cited in § 58.5.

(b) A recipient does not have to submit an RROF and certification, and no further approval from HUD or the State will be needed by the recipient for the drawdown of funds to carry out exempt activities and projects. However, the responsible entity must document in writing its determination that each activity or project is exempt and meets the conditions specified for such exemption under this section.

[61 FR 19122, Apr. 30, 1996, as amended at 63 FR 15271, Mar. 30, 1998]

§ 58.35 Categorical exclusions.

Categorical exclusion refers to a category of activities for which no environmental impact statement or environmental assessment and finding of no significant impact under NEPA is required, except in extraordinary circumstances (see § 58.2(a)(3)) in which a normally excluded activity may have a significant impact. Compliance with the other applicable Federal environmental laws and authorities listed in § 58.5 is required for any categorical exclusion listed in paragraph (a) of this section.

(a) ***Categorical exclusions subject to § 58.5.*** The following activities are categorically excluded under NEPA, but may be subject to review under authorities listed in § 58.5:

(1) Acquisition, repair, improvement, reconstruction, or rehabilitation of public facilities and improvements (other than buildings) when the facilities and improvements are in place and will be retained in the same use without change in size or capacity of more than 20 percent (e.g., replacement of water or sewer lines, reconstruction of curbs and sidewalks, repaving of streets).

(2) Special projects directed to the removal of material and architectural barriers that restrict the mobility of and accessibility to elderly and handicapped persons.

(3) Rehabilitation of buildings and improvements when the following conditions are met:

(i) In the case of a building for residential use (with one to four units), the density is not increased beyond four units, and the land use is not changed;

(ii) In the case of multifamily residential buildings:

(A) Unit density is not changed more than 20 percent;

(B) The project does not involve changes in land use from residential to non-residential; and

(C) The estimated cost of rehabilitation is less than 75 percent of the total estimated cost of replacement after rehabilitation.

(iii) In the case of non-residential structures, including commercial, industrial, and public buildings:

(A) The facilities and improvements are in place and will not be changed in size or capacity by more than 20 percent; and

(B) The activity does not involve a change in land use, such as from non-residential to residential, commercial to industrial, or from one industrial use to another.

(4)

(i) An individual action on up to four dwelling units where there is a maximum of four units on any one site. The units can be four one-unit buildings or one four-unit building or any combination in between; or

(ii) An individual action on a project of five or more housing units developed on scattered sites when the sites are more than 2,000 feet apart and there are not more than four housing units on any one site.

(iii) Paragraphs (a)(4)(i) and (ii) of this section do not apply to rehabilitation of a building for residential use (with one to four units) (see paragraph (a)(3)(i) of this section).

(5) Acquisition (including leasing) or disposition of, or equity loans on an existing structure, or acquisition (including leasing) of vacant land provided that the structure or land acquired, financed, or disposed of will be retained for the same use.

(6) Combinations of the above activities.

(b) ***Categorical exclusions not subject to § 58.5.*** The Department has determined that the following categorically excluded activities would not alter any conditions that would require a review or compliance determination under the Federal laws and authorities cited in § 58.5. When the following kinds of activities are undertaken, the responsible entity does not have to publish a NOI/RROF or execute a certification and the recipient does not have to submit a RROF to HUD (or the State) except in the circumstances described in paragraph (c) of this section. Following the award of the assistance, no further approval from HUD or the State will be needed with respect to environmental requirements, except where paragraph (c) of this section applies. The recipient remains responsible for carrying out any applicable requirements under § 58.6.

(1) Tenant-based rental assistance;

(2) Supportive services including, but not limited to, health care, housing services, permanent housing placement, day care, nutritional services, short-term payments for rent/mortgage/utility costs, and assistance in gaining access to local, State, and Federal government benefits and services;

(3) Operating costs including maintenance, security, operation, utilities, furnishings, equipment, supplies, staff training and recruitment and other incidental costs;

(4) Economic development activities, including but not limited to, equipment purchase, inventory financing, interest subsidy, operating expenses and similar costs not associated with construction or expansion of existing operations;

(5) Activities to assist homebuyers to purchase existing dwelling units or dwelling units under construction, including closing costs and down payment assistance, interest buydowns, and similar activities that result in the transfer of title.

(6) Affordable housing pre-development costs including legal, consulting, developer and other costs related to obtaining site options, project financing, administrative costs and fees for loan commitments, zoning approvals, and other related activities which do not have a physical impact.

(7) Approval of supplemental assistance (including insurance or guarantee) to a project previously approved under this part, if the approval is made by the same responsible entity that conducted the environmental review on the original project and re-evaluation of the environmental findings is not required under § 58.47.

(c) ***Circumstances requiring NEPA review.*** If a responsible entity determines that an activity or project identified in paragraph (a) or (b) of this section, because of extraordinary circumstances and conditions at or affecting the location of the activity or project, may have a significant environmental effect, it shall comply with all the requirements of this part.

(d) The Environmental Review Record (ERR) must contain a well organized written record of the process and determinations made under this section.

[61 FR 19122, Apr. 30, 1996, as amended at 63 FR 15272, Mar. 30, 1998; 68 FR 56129, Sept. 29, 2003; 78 FR 68734, Nov. 15, 2013]

§ 58.36 Environmental assessments.

If a project is not exempt or categorically excluded under §§ 58.34 and 58.35, the responsible entity must prepare an EA in accordance with subpart E of this part. If it is evident without preparing an EA that an EIS is required under § 58.37, the responsible entity should proceed directly to an EIS.

§ 58.37 Environmental impact statement determinations.

(a) An EIS is required when the project is determined to have a potentially significant impact on the human environment.

(b) An EIS is required under any of the following circumstances, except as provided in paragraph (c) of this section:

(1) The project would provide a site or sites for, or result in the construction of, hospitals or nursing homes containing a total of 2,500 or more beds.

(2) The project would remove, demolish, convert or substantially rehabilitate 2,500 or more existing housing units (but not including rehabilitation projects categorically excluded under § 58.35), or would result in the construction or installation of 2,500 or more housing units, or would provide sites for 2,500 or more housing units.

(3) The project would provide enough additional water and sewer capacity to support 2,500 or more additional housing units. The project does not have to be specifically intended for residential use nor does it have to be totally new construction. If the project is designed to provide upgraded service to existing development as well as to serve new development, only that portion of the increased capacity which is intended to serve new development should be counted.

(c) If, on the basis of an EA, a responsible entity determines that the thresholds in paragraph (b) of this section are the sole reason for the EIS, the responsible entity may prepare a FONSI pursuant to 40 CFR 1501.4. In such cases, the FONSI must be made available for public review for at least 30 days before the responsible entity makes the final determination whether to prepare an EIS.

(d) Notwithstanding paragraphs (a) through (c) of this section, an EIS is not required where § 58.53 is applicable.

(e) ***Recommended EIS Format.*** The responsible entity must use the EIS format recommended by the CEQ regulations (40 CFR 1502.10) unless a determination is made on a particular project that there is a compelling reason to do otherwise. In such a case, the EIS format must meet the minimum requirements prescribed in 40 CFR 1502.10.

§ 58.38 Environmental review record.

The responsible entity must maintain a written record of the environmental review undertaken under this part for each project. This document will be designated the "Environmental Review Record" (ERR) and shall be available for public review. The Departmental Environmental Clearance Officer (DECO) shall establish a prescribed format that the responsible entity shall use to prepare the ERR. The DECO may prescribe alternative formats as necessary to meet specific program needs.

(a) ***ERR Documents.*** The ERR shall contain all the environmental review documents, public notices and written determinations or environmental findings required by this part as evidence of review, decisionmaking and actions pertaining to a particular project of a recipient. The document shall:

(1) Describe the project and the activities that the recipient has determined to be part of the project;

(2) Evaluate the effects of the project or the activities on the human environment;

(3) Document compliance with applicable statutes and authorities, in particular those cited in § 58.5 and 58.6; and

(4) Record the written determinations and other review findings required by this part (e.g., exempt and categorically excluded projects determinations, findings of no significant impact).

(b) ***Other documents and information.*** The ERR shall also contain verifiable source documents and relevant base data used or cited in EAs, EISs or other project review documents. These documents may be incorporated by reference into the ERR provided that each source document is identified and available for inspection by interested parties. Proprietary material and special studies prepared for the recipient that are not otherwise generally available for public review shall not be incorporated by reference but shall be included in the ERR.

Subpart E - Environmental Review Process: Environmental Assessments (EA's)

§ 58.40 Preparing the environmental assessment.

The DECO shall establish a prescribed format that the responsible entity shall use to prepare the EA. The DECO may prescribe alternative formats as necessary to meet specific program needs. In preparing an EA for a particular proposed project or other action, the responsible entity must:

(a) Determine existing conditions and describe the character, features and resources of the project area and its surroundings; identify the trends that are likely to continue in the absence of the project.

(b) Identify all potential environmental impacts, whether beneficial or adverse, and the conditions that would change as a result of the project.

(c) Identify, analyze and evaluate all impacts to determine the significance of their effects on the human environment and whether the project will require further compliance under related laws and authorities cited in § 58.5 and § 58.6.

(d) Examine and recommend feasible ways in which the project or external factors relating to the project could be modified in order to eliminate or minimize adverse environmental impacts.

(e) Discuss the need for the proposal, appropriate alternatives where the proposal involves unresolved conflicts concerning alternative uses of available resources, the environmental impacts of the proposed action and alternatives, and a listing of agencies and persons consulted.

(f) Complete all environmental review requirements necessary for the project's compliance with applicable authorities cited in §§ 58.5 and 58.6.

(g) Based on steps set forth in paragraph (a) through (f) of this section, make one of the following findings:

(1) A Finding of No Significant Impact (FONSI), in which the responsible entity determines that the project is not an action that will result in a significant impact on the quality of the human environment. The responsible entity may then proceed to § 58.43.

(2) A finding of significant impact, in which the project is deemed to be an action which may significantly affect the quality of the human environment. The responsible entity must then proceed with its environmental review under subpart F or G of this part.

[61 FR 19122, Apr. 30, 1996, as amended at 79 FR 49229, Aug. 20, 2014]

§ 58.43 Dissemination and/or publication of the findings of no significant impact.

(a) If the responsible entity makes a finding of no significant impact, it must prepare a FONSI notice, using the current HUD-recommended format or an equivalent format. As a minimum, the responsible entity must send the FONSI notice to individuals and groups known to be interested in the activities, to the local news media, to the appropriate tribal, local, State and Federal agencies; to the Regional Offices of the Environmental Protection Agency having jurisdiction and to the HUD Field Office (or the State where applicable). The responsible entity may also publish the FONSI notice in a newspaper of general circulation in the affected community. If the notice is not published, it must also be prominently displayed in public buildings, such as the local Post Office and within the project area or in accordance with procedures established as part of the citizen participation process.

(b) The responsible entity may disseminate or publish a FONSI notice at the same time it disseminates or publishes the NOI/RROF required by § 58.70. If the notices are released as a combined notice, the combined notice shall:

(1) Clearly indicate that it is intended to meet two separate procedural requirements; and

(2) Advise the public to specify in their comments which “notice” their comments address.

(c) The responsible entity must consider the comments and make modifications, if appropriate, in response to the comments, before it completes its environmental certification and before the recipient submits its RROF. If funds will be used in Presidentially declared disaster areas, modifications resulting from public comment, if appropriate, must be made before proceeding with the expenditure of funds.

§ 58.45 Public comment periods.

Required notices must afford the public the following minimum comment periods, counted in accordance with § 58.21:

(a) Notice of Finding of No Significant Impact (FONSI)	15 days when published or, if no publication, 18 days when mailing and posting
(b) Notice of Intent to Request Release of Funds (NOI-RROF)	7 days when published or, if no publication, 10 days when mailing and posting
(c) Concurrent or combined notices	15 days when published or, if no publication, 18 days when mailing and posting

[68 FR 56130, Sept. 29, 2003]

§ 58.46 Time delays for exceptional circumstances.

The responsible entity must make the FONSI available for public comments for 30 days before the recipient files the RROF when:

(a) There is a considerable interest or controversy concerning the project;

(b) The proposed project is similar to other projects that normally require the preparation of an EIS; or

(c) The project is unique and without precedent.

§ 58.47 Re-evaluation of environmental assessments and other environmental findings.

(a) A responsible entity must re-evaluate its environmental findings to determine if the original findings are still valid, when:

(1) The recipient proposes substantial changes in the nature, magnitude or extent of the project, including adding new activities not anticipated in the original scope of the project;

(2) There are new circumstances and environmental conditions which may affect the project or have a bearing on its impact, such as concealed or unexpected conditions discovered during the implementation of the project or activity which is proposed to be continued; or

(3) The recipient proposes the selection of an alternative not in the original finding.

(b)

(1) If the original findings are still valid but the data or conditions upon which they were based have changed, the responsible entity must affirm the original findings and update its ERR by including this re-evaluation and its determination based on its findings. Under these circumstances, if a FONSI notice has already been published, no further publication of a FONSI notice is required.

(2) If the responsible entity determines that the original findings are no longer valid, it must prepare an EA or an EIS if its evaluation indicates potentially significant impacts.

(3) Where the recipient is not the responsible entity, the recipient must inform the responsible entity promptly of any proposed substantial changes under paragraph (a)(1) of this section, new circumstances or environmental conditions under paragraph (a)(2) of this section, or any proposals to select a different alternative under paragraph (a)(3) of this section, and must then permit the responsible entity to re-evaluate the findings before proceeding.

[61 FR 19122, Apr. 30, 1996, as amended at 63 FR 15272, Mar. 30, 1998]

Subpart F - Environmental Review Process: Environmental Impact Statement Determinations

§ 58.52 Adoption of other agencies' EISs.

The responsible entity may adopt a draft or final EIS prepared by another agency provided that the EIS was prepared in accordance with 40 CFR parts 1500 through 1508. If the responsible entity adopts an EIS prepared by another agency, the procedure in 40 CFR 1506.3 shall be followed. An adopted EIS may have to be revised and modified to adapt it to the particular environmental conditions and circumstances of the project if these are different from the project reviewed in the EIS. In such cases the responsible entity must prepare, circulate, and file a supplemental draft EIS in the manner prescribed in § 58.60(d) and otherwise comply with the clearance and time requirements of the EIS process, except that scoping requirements under 40 CFR 1501.7 shall not apply. The agency that prepared the original EIS should be informed that the responsible entity intends to amend and adopt the EIS. The responsible entity may adopt an EIS when it acts as a cooperating agency in its preparation under 40 CFR 1506.3. The responsible entity is not required to re-circulate or file the EIS, but must complete the clearance process for the RROF. The decision to adopt an EIS shall be made a part of the project ERR.

§ 58.53 Use of prior environmental impact statements.

Where any final EIS has been listed in the FEDERAL REGISTER for a project pursuant to this part, or where an areawide or similar broad scale final EIS has been issued and the EIS anticipated a subsequent project requiring an environmental clearance, then no new EIS is required for the subsequent project if all the following conditions are met:

(a) The ERR contains a decision based on a finding pursuant to § 58.40 that the proposed project is not a new major Federal action significantly affecting the quality of the human environment. The decision shall include:

(1) References to the prior EIS and its evaluation of the environmental factors affecting the proposed subsequent action subject to NEPA;

(2) An evaluation of any environmental factors which may not have been previously assessed, or which may have significantly changed;

(3) An analysis showing that the proposed project is consistent with the location, use, and density assumptions for the site and with the timing and capacity of the circulation, utility, and other supporting infrastructure assumptions in the prior EIS;

(4) Documentation showing that where the previous EIS called for mitigating measures or other corrective action, these are completed to the extent reasonable given the current state of development.

(b) The prior final EIS has been filed within five (5) years, and updated as follows:

(1) The EIS has been updated to reflect any significant revisions made to the assumptions under which the original EIS was prepared;

(2) The EIS has been updated to reflect new environmental issues and data or legislation and implementing regulations which may have significant environmental impact on the project area covered by the prior EIS.

(c) There is no litigation pending in connection with the prior EIS, and no final judicial finding of inadequacy of the prior EIS has been made.

Subpart G - Environmental Review Process: Procedures for Draft, Final and Supplemental Environmental Impact Statements

§ 58.55 Notice of intent to prepare an EIS.

As soon as practicable after the responsible entity decides to prepare an EIS, it must publish a NOI/EIS, using the HUD recommended format and disseminate it in the same manner as required by 40 CFR parts 1500 through 1508.

§ 58.56 Scoping process.

The determination on whether or not to hold a scoping meeting will depend on the same circumstances and factors as for the holding of public hearings under § 58.59. The responsible entity must wait at least 15 days after disseminating or publishing the NOI/EIS before holding a scoping meeting.

§ 58.57 Lead agency designation.

If there are several agencies ready to assume the lead role, the responsible entity must make its decision based on the criteria in 40 CFR 1501.5(c). If the responsible entity and a Federal agency are unable to reach agreement, then the responsible entity must notify HUD (or the State, where applicable). HUD (or the State) will assist in obtaining a determination based on the procedure set forth in 40 CFR 1501.5(e).

§ 58.59 Public hearings and meetings.

(a) ***Factors to consider.*** In determining whether or not to hold public hearings in accordance with 40 CFR 1506.6, the responsible entity must consider the following factors:

(1) The magnitude of the project in terms of economic costs, the geographic area involved, and the uniqueness or size of commitment of resources involved.

(2) The degree of interest in or controversy concerning the project.

(3) The complexity of the issues and the likelihood that information will be presented at the hearing which will be of assistance to the responsible entity.

(4) The extent to which public involvement has been achieved through other means.

(b) ***Procedure.*** All public hearings must be preceded by a notice of public hearing, which must be published in the local news media 15 days before the hearing date. The Notice must:

(1) State the date, time, place, and purpose of the hearing or meeting.

(2) Describe the project, its estimated costs, and the project area.

(3) State that persons desiring to be heard on environmental issues will be afforded the opportunity to be heard.

(4) State the responsible entity's name and address and the name and address of its Certifying Officer.

(5) State what documents are available, where they can be obtained, and any charges that may apply.

§ 58.60 Preparation and filing of environmental impact statements.

(a) The responsible entity must prepare the draft environmental impact statement (DEIS) and the final environmental impact statements (FEIS) using the current HUD recommended format or its equivalent.

(b) The responsible entity must file and distribute the (DEIS) and the (FEIS) in the following manner:

(1) Five copies to EPA Headquarters;

(2) Five copies to EPA Regional Office;

(3) Copies made available in the responsible entity's and the recipient's office;

(4) Copies or summaries made available to persons who request them; and

(5) FEIS only - one copy to State, HUD Field Office, and HUD Headquarters library.

(c) The responsible entity may request waivers from the time requirements specified for the draft and final EIS as prescribed in 40 CFR 1506.6.

(d) When substantial changes are proposed in a project or when significant new circumstances or information becomes available during an environmental review, the recipient may prepare a supplemental EIS as prescribed in 40 CFR 1502.9.

(e) The responsible entity must prepare a Record of Decision (ROD) as prescribed in 40 CFR 1505.2.

[61 FR 19122, Apr. 30, 1996, as amended at 63 FR 15272, Mar. 30, 1998]

Subpart H - Release of Funds for Particular Projects

§ 58.70 Notice of intent to request release of funds.

The NOI/RROF must be disseminated and/or published in the manner prescribed by § 58.43 and § 58.45 before the certification is signed by the responsible entity.

§ 58.71 Request for release of funds and certification.

(a) The RROF and certification shall be sent to the appropriate HUD Field Office (or the State, if applicable), except as provided in paragraph (b) of this section. This request shall be executed by the Certifying Officer. The request shall describe the specific project and activities covered by the request and contain the certification required under the applicable statute cited in § 58.1(b). The RROF and certification must be in a form specified by HUD.

(b) When the responsible entity is conducting an environmental review on behalf of a recipient, as provided for in § 58.10, the recipient must provide the responsible entity with all available project and environmental information and refrain from undertaking any physical activities or choice limiting actions until HUD (or the State, if applicable) has approved its request for release of funds. The certification form executed by the responsible entity's certifying officer shall be sent to the recipient that is to receive the

assistance along with a description of any special environmental conditions that must be adhered to in carrying out the project. The recipient is to submit the RROF and the certification of the responsible entity to HUD (or the State, if applicable) requesting the release of funds. The recipient must agree to abide by the special conditions, procedures and requirements of the environmental review, and to advise the responsible entity of any proposed change in the scope of the project or any change in environmental conditions.

(c) If the responsible entity determines that some of the activities are exempt under applicable provisions of this part, the responsible entity shall advise the recipient that it may commit funds for these activities as soon as programmatic authorization is received. This finding shall be documented in the ERR maintained by the responsible entity and in the recipient's project files.

§ 58.72 HUD or State actions on RROFs and certifications.

The actions which HUD (or a State) may take with respect to a recipient's environmental certification and RROF are as follows:

(a) In the absence of any receipt of objection to the contrary, except as provided in paragraph (b) of this section, HUD (or the State) will assume the validity of the certification and RROF and will approve these documents after expiration of the 15-day period prescribed by statute.

(b) HUD (or the state) may disapprove a certification and RROF if it has knowledge that the responsible entity or other participants in the development process have not complied with the items in § 58.75, or that the RROF and certification are inaccurate.

(c) In cases in which HUD has approved a certification and RROF but subsequently learns (e.g., through monitoring) that the recipient violated § 58.22 or the recipient or responsible entity otherwise failed to comply with a clearly applicable environmental authority, HUD shall impose appropriate remedies and sanctions in accord with the law and regulations for the program under which the violation was found.

[61 FR 19122, Apr. 30, 1996, as amended at 68 FR 56130, Sept. 29, 2003]

§ 58.73 Objections to release of funds.

HUD (or the State) will not approve the ROF for any project before 15 calendar days have elapsed from the time of receipt of the RROF and the certification or from the time specified in the notice published pursuant to § 58.70, whichever is later. Any person or agency may object to a recipient's RROF and the related certification. However, the objections must meet the conditions and procedures set forth in subpart H of this part. HUD (or the State) can refuse the RROF and certification on any grounds set forth in § 58.75. All decisions by HUD (or the State) regarding the RROF and the certification shall be final.

§ 58.74 Time for objecting.

All objections must be received by HUD (or the State) within 15 days from the time HUD (or the State) receives the recipient's RROF and the related certification, or within the time period specified in the notice, whichever is later.

§ 58.75 Permissible bases for objections.

HUD (or the State), will consider objections claiming a responsible entity's noncompliance with this part based only on any of the following grounds:

(a) The certification was not in fact executed by the responsible entity's Certifying Officer.

(b) The responsible entity has failed to make one of the two findings pursuant to § 58.40 or to make the written determination required by §§ 58.35, 58.47 or 58.53 for the project, as applicable.

(c) The responsible entity has omitted one or more of the steps set forth at subpart E of this part for the preparation, publication and completion of an EA.

(d) The responsible entity has omitted one or more of the steps set forth at subparts F and G of this part for the conduct, preparation, publication and completion of an EIS.

(e) The recipient or other participants in the development process have committed funds, incurred costs or undertaken activities not authorized by this part before release of funds and approval of the environmental certification by HUD (or the state).

(f) Another Federal agency acting pursuant to 40 CFR part 1504 has submitted a written finding that the project is unsatisfactory from the standpoint of environmental quality.

[61 FR 19122, Apr. 30, 1996, as amended at 68 FR 56130, Sept. 29, 2003]

§ 58.76 Procedure for objections.

A person or agency objecting to a responsible entity's RROF and certification shall submit objections in writing to HUD (or the State). The objections shall:

(a) Include the name, address and telephone number of the person or agency submitting the objection, and be signed by the person or authorized official of an agency.

(b) Be dated when signed.

(c) Describe the basis for objection and the facts or legal authority supporting the objection.

(d) State when a copy of the objection was mailed or delivered to the responsible entity's Certifying Officer.

§ 58.77 Effect of approval of certification.

(a) ***Responsibilities of HUD and States.*** HUD's (or, where applicable, the State's) approval of the certification shall be deemed to satisfy the responsibilities of the Secretary under NEPA and related provisions of law cited at § 58.5 insofar as those responsibilities relate to the release of funds as authorized by the applicable provisions of law cited in § 58.1(b).

(b) ***Public and agency redress.*** Persons and agencies seeking redress in relation to environmental reviews covered by an approved certification shall deal with the responsible entity and not with HUD. It is HUD's policy to refer all inquiries and complaints to the responsible entity and its Certifying Officer. Similarly, the State (where applicable) may direct persons and agencies seeking redress in relation to environmental reviews covered by an approved certification to deal with the responsible entity, and not the State, and may refer inquiries and complaints to the responsible entity and its Certifying Officer. Remedies for noncompliance are set forth in program regulations.

(c) ***Implementation of environmental review decisions.*** Projects of a recipient will require post-review monitoring and other inspection and enforcement actions by the recipient and the State or HUD (using procedures provided for in program regulations) to assure that decisions adopted through the environmental review process are carried out during project development and implementation.

(d) ***Responsibility for monitoring and training.***

(1) At least once every three years, HUD intends to conduct in-depth monitoring and exercise quality control (through training and consultation) over the environmental activities performed by responsible entities under this part. Limited monitoring of these environmental activities will be conducted during each program monitoring site visit. If through limited or in-depth monitoring of these environmental activities or by other means, HUD becomes aware of any environmental deficiencies, HUD may take one or more of the following actions:

(i) In the case of problems found during limited monitoring, HUD may schedule in-depth monitoring at an earlier date or may schedule in-depth monitoring more frequently;

(ii) HUD may require attendance by staff of the responsible entity at HUD-sponsored or approved training, which will be provided periodically at various locations around the country;

(iii) HUD may refuse to accept the certifications of environmental compliance on subsequent grants;

(iv) HUD may suspend or terminate the responsible entity's assumption of the environmental review responsibility;

(v) HUD may initiate sanctions, corrective actions, or other remedies specified in program regulations or agreements or contracts with the recipient.

(2) HUD's responsibilities and action under paragraph (d)(1) of this section shall not be construed to limit or reduce any responsibility assumed by a responsible entity with respect to any particular release of funds under this part. Whether or not HUD takes action under paragraph (d)(1) of this section, the Certifying Officer remains the responsible Federal official under § 58.13 with respect to projects and activities for which the Certifying Officer has submitted a certification under this part.

This document contains answers to frequently asked questions regarding the Final Rule of the Coronavirus State and Local Fiscal Recovery Funds (SLFRF, or Fiscal Recovery Funds). The final rule became effective on April 1, 2022. Treasury intends to update this document periodically in response to questions received from stakeholders. Recipients and stakeholders should consult the final rule for additional information, as this document does not describe all relevant requirements that apply to the SLFRF program. Recipients also may find helpful the Overview of the Final Rule, which provides a summary of major provisions of the final rule for informational purposes.

Answers to frequently asked questions on distribution of funds to non-entitlement units of local government (NEUs) can be found in this FAQ supplement.

Answers to frequently asked questions on the taxability and reporting of payments from SLFRF can be found in this FAQ issued by the IRS.

The FAQs in this document are applicable to the final rule, although readers will notice that many have been incorporated from the FAQs that were available in connection with the interim final rule, because they remain applicable. Answers to frequently asked questions that are unique to the interim final rule remain available at Interim Final Rule: Frequently Asked Questions. A categorization is provided on the following page to assist in identifying the FAQs that remain largely the same as in the FAQ document associated with the interim final rule and the FAQs that are new or have been updated in conformity with the final rule.

Throughout these FAQs, Treasury may refer readers to relevant sections of the Overview of the Final Rule. The Overview of the Final Rule provides a summary of major provisions of the final rule for informational purposes and is intended as a brief, simplified user guide to the final rule provisions. The descriptions provided in the Overview summarize key provisions of the final rule but are non-exhaustive, do not describe all terms and conditions associated with the use of SLFRF funds, and do not describe all requirements that may apply to this funding. Any SLFRF funds received are also subject to the terms and conditions of the agreement entered into by Treasury and the respective jurisdiction, which incorporate the provisions of the final rule and the guidance that implements this program.

Second, as part of the PH-NEI eligible use category, recipients may use funds for adaptations to schools for the purpose of mitigating the spread of COVID-19, including for ventilation improvements. Similar to the above, recipients should ensure compliance with the capital expenditure requirements for the eligible use category.

Third, as part of the water and sewer infrastructure eligible use category, recipients may invest in certain projects to support lead remediation, including replacement of internal plumbing and faucets and fixtures in schools and childcare facilities. Recipients can also invest in certain green water infrastructure projects. Eligible water and sewer projects are generally aligned with those allowable under the EPA's Drinking Water and Clean Water State Revolving Funds, and Treasury has added additional eligible projects as part of the final rule. Recipients should review and comply with the specific requirements provided for in the water and sewer infrastructure eligible use category as outlined in the final rule.

Fourth, as part of the revenue loss eligible use category, which is the broadest eligible use category that is capped by either the $10 million standard allowance (up to a recipient's award size) or a recipient's calculated revenue loss, recipients may use SLFRF funds on government services. These government services include any service traditionally provided by a government unless Treasury has stated otherwise. Eligible government services that may be covered under the revenue loss eligible use category include maintenance, improvement, or new construction of public school facilities, including those that address over-crowding and capacity constraints, support energy efficiency, and respond to health and safety concerns, among other purposes.

Under the SLFRF program, recipients must obligate all funds by December 31, 2024 and expend funds by December 31, 2026. Recipients may transfer funds to other entities, including local educational agencies, to carry out as a subrecipient an eligible use of funds by the recipient, as long as they comply with program requirements. Recipients should note that the Davis-Bacon Act requirements (prevailing wage rates) do not apply to projects funded solely with award funds from the SLFRF program, except for certain SLFRF-funded construction projects undertaken by the District of Columbia. The National Environmental Policy Act (NEPA) does not apply to Treasury's administration of the SLFRF program, although projects supported with SLFRF funds may still be subject to NEPA review if they are also funded by other federal financial assistance programs.

2.22. Would investments in improving outdoor spaces (e.g., parks) be an eligible use of funds as a response to the public health emergency and/or its negative economic impacts?

There are multiple ways that investments in improving outdoor spaces could qualify as eligible uses; several are highlighted below, though there may be other ways that a specific investment in outdoor spaces would meet eligible use criteria.

First, in recognition of the disproportionate negative economic impacts on certain communities and populations, the final rule includes enumerated eligible uses in disproportionately impacted communities for developing neighborhood features that

SUMMARY:

Approval of Amendment Six to the Small City Cooperation Agreements, Amendment Three to the Metropolitan City Cooperation Agreements and Amendment One to the Cooperation Agreement to the Small City of San Juan Capistrano will provide the mechanism for 12 Small Cities, two Metropolitan Cities and the County of Orange to access federal funding through the Urban County Program for FY 2024-25 through FY 2026-27 for housing and community development activities.

BACKGROUND INFORMATION:

The U.S. Department of Housing and Urban Development (HUD) requires Cooperation Agreements between the County of Orange (County) and cities electing to participate in the Urban County Program. Urban counties are a type of entitlement community that have met certain population thresholds to qualify to receive a direct entitlement allocation of Community Development Block Grant (CDBG) funds. These funds are used for housing and community development activities for public services in the form of homeless service activities such as emergency shelter operations, community center operations and improvements; housing rehabilitation for low- to moderate-income families; and improvements to public facilities within the 14 participating cities and County unincorporated areas. In order to participate in the Urban County Program, cities need to enter into these cooperation agreements with the county.

Orange County cities with less than 50,000 in population (Small Cities) and cities with over 50,000 in population (Metropolitan Cities) can elect to participate in the Urban County Program. The County is required by HUD to renew its Urban County entitlement status every three years and can amend its existing Cooperation Agreements with eligible participating cities to extend the term without having to enter into new Agreements.

This Agenda Staff Report seeks approval of Amendment Three to the Metropolitan City Cooperation Agreements with the Cities of Placentia and Yorba Linda, which joined the Urban County Program in FY 2015-16; Amendment Six to the Small Cities Cooperation Agreements with the Cities of Brea, Cypress, Dana Point, La Palma, Laguna Beach, Laguna Hills, Laguna Woods, Los Alamitos, Seal Beach, Stanton and Villa Park; and Amendment One to the Cooperation Agreement with City of San Juan Capistrano, which joined the Urban County Program in FY 2021-23.

HUD sent the final instructions for Urban County qualification on April 10, 2023. As required by HUD, on May 2, 2023, the County notified each of the Small Cities and Metropolitan Cities of its right to elect to be included or excluded from the Urban County Program for FY 2024-25 through FY 2026-27.

As of the finalization of this Agenda Staff Report, the following Cities have elected to participate in the Urban County Program for FY 2024-25 through FY 2026-27.

Small Cities
City of Brea
City of Cypress
City of Dana Point
City of La Palma
City of Laguna Beach
City of Laguna Hills
City of Laguna Woods
City of Los Alamitos
City of San Juan Capistrano
City of Seal Beach
City of Stanton
City of Villa Park

Metropolitan Cities
City of Placentia
City of Yorba Linda

To continue to qualify as an Urban County, the Cooperation Agreements are required to be submitted to HUD by August 4, 2023.

Approval of Amendment Six to the Small City Cooperation Agreements, Amendment Three to the Metropolitan City Cooperation Agreements and Amendment One to the Small City Cooperation Agreement with City of San Juan Capistrano will provide federal funding through the Urban County Program for FY 2024-25 through FY 2026-27 for housing and community development activities that will support the ongoing operations of programs and services that are part of the County's Office of Care Coordination, including addressing the needs of those experiencing homelessness in Orange County.

2. Section 9 of the Original Agreement shall read as amended in its entirety as follows:

   "This Agreement shall cover Fiscal Years 2024-2025, 2025-2026 and 2026-2027, respectively of CDBG, HOME and ESG program applications, including any subsequent Supplemental sources (Paragraph 23 of the Agreement). In no event shall this agreement be terminated by either Party before June 30, 2027, except as allowed in legislation enacted by the U.S. Congress for termination or withdrawal from the Urban County Program and as permitted by HUD.

   This Agreement remains in effect until the CDBG (and, where applicable, HOME and ESG) funds and program income received (with respect to activities carried out during the three-year qualification period, and any successive qualification periods under agreements that provide for automatic renewal) are expended and the funded activities completed, and the COUNTY and CITY cannot terminate or withdraw from this Agreement while it remains in effect."

3. Section 10 shall be added to Agreement to read:

requirement(s) subsequent to June 30, 2024 and to submit such amendments to HUD. The COUNTY will notify CITY of its right to terminate its participation in the program based on the adoption of any such amendment. If either CITY or COUNTY refuses to adopt any such amendment, this automatic renewal provision herein will be void."

5. Section 14 of the Original Agreement is amended to add subsection (d) as follows:

   "d. May receive a formula allocation under the ESG Program only through the Urban County."

6. Section 24 of the Original Agreement is amended to read:

   "CITY may void this Agreement only if it submits to COUNTY on or before July 21, 2023 the notification from HUD that CITY has qualified as a "Metropolitan City" or an "Entitlement City" prior to the completion of the re-qualification process for Fiscal Years 2024-25, 2025-2026, and 2026-2027. Upon such notification by HUD, CITY also must submit to COUNTY and HUD written notification of its decision to either remain in the Urban County Program as a "Metropolitan City" or become an "Entitlement City" as a separate entity."

II. Additional Agreements

1. The COUNTY and the CITY agree to cooperate to undertake, or assist in undertaking, community renewal and lower-income housing assistance activities.

2. The COUNTY and the CITY shall take all actions necessary to assure compliance with the COUNTY'S certification under section 104(b) of Title I of the Housing and Community Development Act of 1974, that the grant will be conducted and administered in conformity with Title VI of the Civil Rights Act of 1964 and the Fair Housing Act and will affirmatively further fair housing as required under See 24 CFR 91.225(a) and 5.105(a). The Parties shall comply with section 109 of Title I of the Housing and Community Development Act of 1974, which incorporates Section 504 of the Rehabilitation Act of 1973 of Title II of the Americans with Disabilities Act, the Age Discrimination Act of 1975, and Section 3 of the Housing and Urban Development Act of 1968, and all other applicable laws. The Parties agree that no urban county funding will be used for activities in, or in support of, any cooperating unit of general local government that does not affirmatively further fair housing within its own jurisdiction or that impedes the COUNTY'S actions to comply with the COUNTY'S fair housing certification. The Parties acknowledge and agree that noncompliance by a unit of general local government included in an urban county may constitute noncompliance by the grantee (i.e., the urban 14 county) that

can, in turn, provide cause for funding sanctions or other remedial actions by the Department.

3. The CITY, and all other applicable units of general local government, may not sell, trade, or otherwise transfer all or any portion of such funds to another such metropolitan city, urban county, unit of general local government, or Indian tribe, or insular area that directly or indirectly receives CDBG funds in exchange for any other funds, credits or non-Federal considerations, but must use such funds for activities eligible under title I of the Act.

All other provisions of the Original Agreement, as amended, a copy of which is attached hereto as Exhibit A and incorporated by this reference, to the extent they are not inconsistent with this Amendment SIX, remain unchanged and in full force and effect.

government that does not affirmatively further fair housing within its own jurisdiction or that impedes the COUNTY'S actions to comply with the COUNTY'S fair housing certification. 3. The CITY, and all other applicable units of general local government, may not sell, trade, or otherwise transfer all or any portion of such funds to another such metropolitan city, urban county, unit of general local government, or Indian tribe, or insular area that directly or indirectly receives CDBG funds in exchange for any other funds, credits or non-Federal considerations, but must use such funds for activities eligible under title I of the Act.

4. All other provisions of the Original Agreement, as amended, a copy of which is attached hereto as Exhibit A and incorporated by this reference, to the extent they are not inconsistent with this Amendment SIX, remain unchanged and in full force and effect.

NOW, THEREFORE, the Parties hereby agree as follows:

I. Modifications to the Original Agreement

1. Section 2 of the Original Agreement is amended in its entirety as follows:

   "COUNTY shall have the authority to carry out activities, which will be funded from annual Community Development Block Grant (CDBG), Home Investment Partnership (HOME) and Emergency Solutions Grant (ESG) Program funds appropriated for Fiscal Years 2024-2025, 2025-2026 and 2026-2027 and from any program income generated from the expenditure of such funds."

2. Section 9 of the Original Agreement shall read as amended in its entirety as follows:

   "This Agreement shall cover Fiscal Years 2024-2025, 2025-2026 and 2026-2027, respectively of CDBG, HOME and ESG program applications, including any subsequent Supplemental sources (Paragraph 23 of the Agreement). In no event shall this agreement be terminated by either Party before June 30, 2027, except as allowed in legislation enacted by the U.S. Congress for termination or withdrawal from the Urban County Program and as permitted by HUD.

   This Agreement remains in effect until the CDBG (and, where applicable, HOME and ESG) funds and program income received (with respect to activities carried out during the three-year qualification period, and any successive qualification periods under agreements that provide for automatic renewal) are expended and the funded activities completed, and the COUNTY and CITY cannot terminate or withdraw from this Agreement while it remains in effect."

3. Section 10 shall be added to Agreement to read:

   "In accordance with HUD Notice CPD 23-03, and subsequent CPD Notices, this Agreement will be automatically extended for an additional 3 (three) year period (July 1, 2024 to June 30, 2027) unless COUNTY or CITY provides written notice that it elects not to participate in a new qualification period. A copy of the notice must be sent to HUD Field Office. COUNTY shall notify CITY in writing of its right not to participate any longer than the date specified in HUD's Urban County Qualification Notice for the next qualification period."

4. Section 11 of the Original Agreement is amended to read:

   "CITY and COUNTY agree to adopt amendments (s) to this Agreement as may be required by HUD to meet any new Urban County Qualification

DocuSign Envelope ID: 3B5FB8CC-98AA-4D25-83A9-1576FD0090D1

requirement(s) subsequent to June 30, 2024 and to submit such amendments to HUD. The COUNTY will notify CITY of its right to terminate its participation in the program based on the adoption of any such amendment. If either CITY or COUNTY refuses to adopt any such amendment, this automatic renewal provision herein will be void."

5. Section 14 of the Original Agreement is amended to add subsection (d) as follows:

   "d. May receive a formula allocation under the ESG Program only through the Urban County."

6. Section 24 of the Original Agreement is amended to read:

   "CITY may void this Agreement only if it submits to COUNTY on or before July 21, 2023 the notification from HUD that CITY has qualified as a "Metropolitan City" or an "Entitlement City" prior to the completion of the re-qualification process for Fiscal Years 2024-25, 2025-2026, and 2026-2027. Upon such notification by HUD, CITY also must submit to COUNTY and HUD written notification of its decision to either remain in the Urban County Program as a "Metropolitan City" or become an "Entitlement City" as a separate entity."

II. Additional Agreements

1. The COUNTY and the CITY agree to cooperate to undertake, or assist in undertaking, community renewal and lower-income housing assistance activities.

2. The COUNTY and the CITY shall take all actions necessary to assure compliance with the COUNTY'S certification under section 104(b) of Title I of the Housing and Community Development Act of 1974, that the grant will be conducted and administered in conformity with Title VI of the Civil Rights Act of 1964 and the Fair Housing Act and will affirmatively further fair housing as required under See 24 CFR 91.225(a) and 5.105(a). The Parties shall comply with section 109 of Title I of the Housing and Community Development Act of 1974, which incorporates Section 504 of the Rehabilitation Act of 1973 of Title II of the Americans with Disabilities Act, the Age Discrimination Act of 1975, and Section 3 of the Housing and Urban Development Act of 1968, and all other applicable laws. The Parties agree that no urban county funding will be used for activities in, or in support of, any cooperating unit of general local government that does not affirmatively further fair housing within its own jurisdiction or that impedes the COUNTY'S actions to comply with the COUNTY'S fair housing certification. The Parties acknowledge and agree that noncompliance by a unit of general local government included in an urban county may constitute noncompliance by the grantee (i.e., the urban 14 county) that

DocuSign Envelope ID: 3B5FB8CC-98AA-4D25-83A9-1576FD0090D1

can, in turn, provide cause for funding sanctions or other remedial actions by the Department.

3. The CITY, and all other applicable units of general local government, may not sell, trade, or otherwise transfer all or any portion of such funds to another such metropolitan city, urban county, unit of general local government, or Indian tribe, or insular area that directly or indirectly receives CDBG funds in exchange for any other funds, credits or non-Federal considerations, but must use such funds for activities eligible under title I of the Act.

All other provisions of the Original Agreement, as amended, a copy of which is attached hereto as Exhibit A and incorporated by this reference, to the extent they are not inconsistent with this Amendment SIX, remain unchanged and in full force and effect.

IN WITNESS WHEREOF, CITY has caused this Amendment SIX to be executed by its City Manager and attested by its City Clerk; COUNTY has caused this Amendment SIX to be executed by the Director of the Orange County Community Resources; each having been duly authorized by the CITY Council and the COUNTY Board of Supervisors, respectively.

The Parties agree that no urban county funding will be used for activities in, or in support of, any cooperating unit of general local government that does not affirmatively further fair housing within its own jurisdiction or that impedes the COUNTY'S actions to comply with the COUNTY'S fair housing

certification. The Parties acknowledge and agree that noncompliance by a unit of general local government included in an urban county may constitute noncompliance by the grantee (i.e., the urban 14 county) that can, in turn, provide cause for funding sanctions or other remedial actions by the Department.

3. The CITY, and all other applicable units of general local government, may not sell, trade, or otherwise transfer all or any portion of such funds to another such metropolitan city, urban county, unit of general local government, or Indian tribe, or insular area that directly or indirectly receives CDBG funds in exchange for any other funds, credits or non-Federal considerations, but must use such funds for activities eligible under title I of the Act.

4. All other provisions of the Original Agreement, as amended, a copy of which is attached hereto as Exhibit A and incorporated by this reference, to the extent they are not inconsistent with this Amendment SIX, remain unchanged and in full force and effect.

2. Section 6 of the Original Agreement is hereby amended to add subsection (c.) as follows:

   "c. A policy to undertake or assist in undertaking, community renewal and lower-income housing assistance activities."

3. Section 9 of the Original Agreement shall read as amended in its entirety as follows:

   "This Agreement shall cover Fiscal Years 2024-25, 2025-26 and 2026-27, respectively of CDBG and HOME program applications, including any subsequent Supplemental sources (Paragraph 23 of the Agreement). In no event shall this agreement be terminated by either Party before June 30, 2027, except as allowed in legislation enacted by the U.S. Congress for termination or withdrawal from the Urban County Program and as permitted by HUD.

   This Agreement remains in effect until the CDBG (and, where applicable, HOME and ESG) funds and program income received (with respect to activities carried out during the three-year qualification period, and any successive qualification periods under agreements that provide for automatic renewal) are expended and the funded activities completed, and the COUNTY and CITY cannot terminate or withdraw from this Agreement while it remains in effect."

4. Section 10 shall be added to Agreement to read:

amendments to HUD. The COUNTY will notify CITY of its right to terminate its participation in the program based on the adoption of any such amendment. If either CITY or COUNTY refuses to adopt any such amendment, this automatic renewal provision herein will be void."

6. Section 14 of the Original Agreement is amended to add subsection (d) as follows:

   "d. May receive a formula allocation under the ESG Program only through the Urban County."

7. Section 24(a) of the Original Agreement is amended to read:

BOARD OF SUPERVISORS

MEMORANDUM

RECEIVED
CLERK OF THE BOARD
JUL 13 2023

Date: 7-12-2023

To: Robin Stieler, Clerk of the Board

From: Supervisor Doug Chaffee, Fourth District

Subject: Addition of Supplemental Agenda Item for July 18, 2023

S29G

Please include a supplemental agenda item titled "Approval of Police Social Worker Pilot Program for Fullerton PD."

Supervisor Doug Chaffee has allocated $1,000,000 of District 4 discretionary funds for a 2-year pilot program to help the City of Fullerton Police Department hire two Licensed Clinical Social Workers (LCSWs). This action is subject to the Fullerton City Council approving the program at their July 18, 2023 Council meeting.

The objective of the Police Social Worker Program is to have social workers respond to calls involving mental health crises, domestic violence, or juvenile delinquency, either in conjunction with or instead of police officers. By incorporating Licensed Clinical Social Workers, Fullerton PD can enhance their services to individuals experiencing trauma and, when appropriate, provide viable alternatives to incarceration. These professionals can offer counseling, crisis response, mediation, and community referrals. They are trained to address mental, behavioral, and emotional disorders, develop treatment plans, and conduct follow-up evaluations to ensure effectiveness. Moreover, LCSWs would be available to provide mental health training and consultation to Fullerton police officers.

Introducing Police Social Workers to non-criminal service calls allows officers to remain accessible for criminal incidents and emergencies. This program presents a unique opportunity to improve police response times and integrate subject matter experts into law enforcement responses.

Action Items:

1. Find under to Government Code section 26227 that this expenditure is necessary to meet the social needs of County residents.

2. Authorize and direct the County Executive Officer, or designee, to negotiate and enter into an agreement with City of Fullerton as necessary to effectuate the purposes of this allocation, including, but not limited to, the execution of the agreement with City of Fullerton.

3. Authorize and direct the Auditor-Controller, or designee, to make related payments as necessary to effectuate the purposes of this allocation, including, but not limited to Cal-Card, electronic fund transfers or check payments.

Public Comment on Agenda Item S29H (July 18)

I support the Findings and Recommendations of the Grand Jury on OC Animal Care. I urge the new appointee to work towards the implementation of the Findings and Recommendations

The Grand Jury Report on OC Animal Care can be found here:
https://www.ocgrandjury.org/pdfs/2022_2023_GJreport/Gimme_Shelter_and_a_Pound_of_Advice.pdf
Below is the intact text of the Grand Jury's Findings and Recommendations. (I added yellow highlighting to what I found most interesting… and cyan highlighting to an important cat issue.)

FINDINGS

Management:

F1 Management has limited flexibility utilizing personnel within Orange County Animal Care across departments due to structured work rules, volunteer work restrictions, and employees working in departmental silos.

F2 Low staff morale exists within Orange County Animal Care.

F3 Orange County Animal Care staffing is negatively impacted by vacant positions remaining unfilled for greater than six months due to burdensome hiring processes. This delay in recruitment and completion of hiring has resulted in qualified candidates declining job offers.

F4 Based upon industry standards and best practices, Orange County Animal Care kennel attendants are understaffed to meet the needs of animals under care.

F5 Orange County Animal Care's operating policies and procedures manual is out of date.

F6 The Orange County Animal Care Volunteer program was stopped during COVID-19 and restarting the program has been slow, resulting in decreased animal socialization and enrichment.

Animal Welfare

F7 Orange County Animal Care's Behavior Evaluation Committee evaluates dogs for euthanasia without written guidelines, policies, or procedures, resulting in inconsistent outcomes over time. Behavior evaluated euthanasia outcomes are dependent on

the experience and personal considerations of the individual committee members and management rather than written objective standards.

F8 The rate of behavioral euthanasia of dogs has increased significantly over the last 2 years.

F9 Orange County Animal Care does not employ a professional or trained and certified animal behaviorist to oversee the shelter's dog enrichment program, resulting in dogs with declining behavior being placed at greater risk of being euthanized.

F10 While many county and city animal shelters throughout the state have active Trap, Neuter, and Return programs, Orange County Animal Care stopped its Trap, Neuter, and Return program, reportedly on the basis of the County Counsel's legal opinion that the program violates a California statute related to willful animal abandonment.

F11 The termination of the Trap, Neuter, and Return program is correlated with an increase in adult cat euthanasia rate at the shelter.

F12 There have been public concerns and requests expressed over the years for public programs to include a spay/neuter program by Orange County Animal Care.

Communication / Outreach

F13 The current adoption appointment system restricts public access to the dog kennels, thereby limiting potential adopters' access to all available animals.

F14 Orange County Animal Care's engagement with some animal rescue partners is negatively impacted due to differences of opinion in appropriate animal care policy.

F15 Internal and community engagement does not adequately communicate the shelter's mission and operating strategy.

F16 The information currently on the Orange County Animal Care website for low- cost spay/neuter is not up to date with regard to referrals and prices for spay/neuter procedures.

Impediments to the Investigation

F17 The OC County Counsel's office misstated to the Grand Jury the scope of its commitment to serving and assisting the Grand Jury in its investigations into County governance respecting managing conflicts between the Board of Supervisors, OC departments and agency clients, and the Grand Jury.

R15 By October 1, 2023, Orange County Animal Care management should look for new ways to be more inclusive and engaged with volunteers and the rescue organizations that are necessary for the shelter's success. (F14, F15)

R16 By October 1, 2023, Orange County Animal Care should schedule quarterly meetings with community stakeholders to facilitate transparency and engagement. (F14, F15)

R17 By October 1, 2023, Orange County Animal Care management should update the information currently on its website for low-cost spay/neuter of feral cats with regard to referrals and prices for spay/neuter procedures. (F16)

Impediments to the Investigation

R18 Beginning with the 2023/2024 Grand Jury training, and all training thereafter, County Counsel should provide detailed instruction about the circumstances under which the County Counsel's office might recuse itself from assisting with Grand Jury investigations and the alternatives available to the Grand Jury under such circumstances. RECOMMENDED ACTION(S)

1. Find that the project is categorically exempt from CEQA, Class 6 (Information Collection) pursuant to CEQA Guidelines Section 15306.

2. Authorize the Director of OC Public Works or Deputized designee to execute contracts for On-Call Watershed Management Plan/Water Quality Improvement Plan Development and Implementation for three years, effective upon execution of all necessary signatures or upon Board of Supervisors approval, whichever occurs later, in an aggregate amount not to exceed $15,000,000, with the option to renew for two additional years with Board of Supervisors approval with the following:

   a. Geosyntec Consultant, Inc.
   b. Larry Walker Associates, Inc.
   c. Paradigm Environmental, Inc.

SUMMARY:

Approval of aggregate contracts for On-Call Watershed Management Plan/Water Quality Improvement Plan Development and Implementation will provide professional services to supplement County of Orange resources for completing projects in a timely manner.

BACKGROUND INFORMATION:

OC Public Works monitors surface water quality and hydrology in the County of Orange (County) for a wide range of mandated environmental regulatory and public safety programs. On-Call Watershed Management Plan/Water Quality Improvement Plan Development and Implementation (Services) are used to assist OC Public Works in collecting data to assess impacts of stormwater runoff on the health of local watersheds and coastal receiving waters as well as provide public safety notifications and warnings of flooding and debris flows during storm events. To continue efficient and reliable collection of this data, it is necessary to retain Services to supplement staff and provide specialized expertise. The award of Services contracts expedites the process to obtain and utilize needed Services.

On January 24, 2023, OC Public Works issued a Request for Proposals (RFP) for Services. The RFP was advertised on the County online bidding system. A total of 11 proposals were received and deemed responsive. On April 13, 2023, the evaluation panel comprised of three evaluators, two from OC Public Works and one from the City of Dana Point, completed the evaluation process and provided its recommendations. The Memorandum of Recommendation is included as Attachment E.

OC Public Works is procuring these Services in accordance with the 2021 Contract Policy Manual Section 3.3-102. The Orange County Preference Policy was applicable and incorporated into this solicitation and three qualified proposals were received, however, no proposal scored high enough to be considered for contract award.

OC Public Works is recommending Board of Supervisors (Board) approval of contracts for Services for three years, effective upon execution of all necessary signatures or upon Board approval, whichever occurs later, in an amount aggregate not to exceed $15 million, with the option to renew for two additional years upon Board approval with the following contractors:

Contractors	Contract	Contractors Location
Geosyntec Consultant, Inc.	MA-080-23010549	Orange County
Larry Walker Associates, Inc.	MA-080-23010549	Los Angeles County
Paradigm Environmental, Inc.	MA-080-23010549	San Diego County

The contractors' respective license numbers were verified as current and active through the Contractors State License Board database on May 30, 2023. Copies of the verifications are on file.

An analysis was conducted to determine the cost/benefit of contracting out versus providing Services in-house. Based on this analysis, OC Public Works has determined that contracting for Services is more cost effective and allows for greater efficiency in providing the Services.

OC Public Works has conducted due diligence on the contractors. Reference checks were satisfactory and completed with the following entities regarding similar Services:

Contractors	Reference	Reference	Reference
Geosyntec	San Bernardino County	Riverside County Flood	Santa Ana Watershed

Consultant, Inc.	Public Works	Control and Water Conservation District	Project Authority
Larry Walker Associates, Inc.	City of Los Angeles	Ventura County Public Works Agency	Malibu Creek Watershed Management Group
Paradigm Environmental, Inc.	County of Los Angeles	County of San Diego	San Mateo County

The contracts include subcontractors. See Attachment D for information regarding subcontractors and Contract Summary Forms.

Compliance with CEQA: The proposed project is Categorically Exempt (Class 6) from the provisions of CEQA pursuant to CEQA Guidelines Section 15306 because the project includes basic data collection, research and resource evaluation activities which do not result in a serious or major disturbance to an environmental resource.

FINANCIAL IMPACT:

Appropriations for these Contracts are included in Budget Control 034, OC Watershed, 78 percent, OC Road Fund 115, four percent and OC Flood Fund 400, 18 percent FY 2023-24, and will be included in the budgeting process for future years.

Funding for the Services is shared among the 36 Permittees. The District will provide 10 percent and the remainder will be divided proportionately among the cities and the County based on land area and population. In turn, the County share is funded out of OC Road, OC Flood, OC Parks and OC Watersheds funds. The resulting shares are as follows:

Cities	75.9%
OC Flood Fund 400	10.0%
OC Watershed Fund 034	4.7%
OC Road Fund 115	4.7%
OC Parks Fund 405	4.7%

The proposed contracts include a provision stating the contracts are subject to, and contingent upon, applicable budgetary appropriations being approved by the Board for each fiscal year during the term of the contracts. If such appropriations are not approved, the contracts may be immediately terminated without penalty to the County.

Furthermore, the parties specifically agree to waive any and all rights to request that an action be transferred for adjudication to another county.

B. **Entire Contract:** This Contract contains the entire Contract between the parties with respect to the matters herein, and there are no restrictions, promises, warranties or undertakings other than those set forth herein or referred to herein. No exceptions, alternatives, substitutes or revisions are valid or binding on County unless authorized by County in writing. a. Geosyntec Consultant, Inc.
b. Larry Walker Associates, Inc.

d. Paradigm Environmental, Inc.

SUMMARY:

Approval of aggregate contracts for On-Call Stormwater Management Services will provide professional services to supplement County of Orange resources for completing projects in a timely manner.

BACKGROUND INFORMATION:

The County, Orange County Flood Control District (District) and 34 cities of Orange County (collectively the Orange County Stormwater Program) are regulated by various National Pollutant Discharge Elimination System (NPDES) permits governing discharges to the municipal separate storm sewer system (MS4), Total Maximum Daily Loads for pollutants entering certain receiving waters, the Trash Amendments and other environmental compliance programs. The NPDES permits comprised in this scope of work may include the MS4 permits for municipalities, Industrial General Permit, Construction General Permit and groundwater/de minimis discharge regulations. In addition to implementing regional compliance solutions for the Orange County Stormwater Program, the County of Orange (County) also has direct regulatory compliance requirements for these programs in the unincorporated portions of the County. Consultant support through these Qualified Vendor List contracts are needed by the County and cities in order to maintain ongoing state mandated compliance under these various regulations. The services will include developing and implementing innovative and cost-effective programs for water quality protection and compliance, delivering applicable training protocols, creating robust auditable management systems for these compliance programs, providing assistance in responding to new or changing regulations, conducting needed data analyses using the latest modeling, geospatial and statistical tools and related programmatic support activities.

On-Call Stormwater Management Services (Services) are used to assist the County in completing capital improvement, rehabilitation and maintenance projects. Many of the projects are time sensitive due to facilities reaching their useful life expectancy and being in need of repair and rehabilitation, while other projects are driven by safety, government code or regulatory permitting requirements. To continue efficient operation and management of County facilities, it is necessary to retain Services to supplement staff and provide specialized expertise.

On January 24, 2023, OC Public Works issued a Request for Proposals (RFP) for Services. The RFP was advertised on the County online bidding system. A total of eight proposals were received and deemed responsive. On April 6, 2023, the evaluation panel, comprised of three evaluators, two from OC Public Works and one from the City of Tustin, completed the evaluation process and provided its recommendations. The Memorandum of Recommendation is included as Attachment F.

OC Public Works is procuring these Services in accordance with the 2021 Contract Policy Manual Section 3.3-102. The Orange County Preference Policy was applicable and incorporated into this solicitation and one qualified proposal was received, however the proposal did not score high enough to be considered for contract award.

OC Public Works is recommending Board of Supervisors (Board) approval of contracts for Services for three years, effective upon execution of all necessary signatures or upon Board approval, whichever occurs later, in an aggregate amount not to exceed $4.5 million, with the option to renew for two additional years upon Board approval with the following contractors:

Contractors	Contracts	Contractors Location
Geosyntec Consultant, Inc.	MA-080-23010861	Orange County
Larry Walker Associates, Inc.	MA-080-23010861	Los Angeles County
Michael Baker International, Inc.	MA-080-23010861	Orange County

Paradigm Environmental, Inc.	MA-080-23010861	San Diego County

The contractors' respective license numbers were verified as current and active through the Contractors State License Board database on May 30, 2023. Copies of the verifications are on file.

An analysis was conducted to determine the cost/benefit of contracting out versus providing Services in-house. Based on this analysis, OC Public Works has determined that contracting for Services is more cost effective, allows for greater efficiency in providing the Services and allows the County to ramp up the Services when needed.

OC Public Works has conducted due diligence on the contractors. Reference checks were satisfactory and completed with the following entities regarding similar Services:

Contractors	Reference	Reference	Reference
Geosyntec Consultant, Inc.	County of San Diego	Riverside County Flood Control and Water Conservation District	City of Redondo Beach
Larry Walker Associates, Inc.	City of Stockton	City of San Diego	Napa County Flood Control & Water Conservation District
Michael Baker International, Inc.	City of San Diego	California Department of Transportation	City of Laguna Beach
Paradigm Environmental, Inc.	County of Los Angeles	County of San Diego	Culver City Public Works Department

The contracts include subcontractors. See Attachment E for information regarding subcontractors and Contract Summary Forms.

Compliance with CEQA: This action is not a project within the meaning of CEQA Guidelines Section 15378 and is therefore not subject to CEQA, since it does not have the potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment. The approval of this agenda item does not commit the County to a definite course of action regarding a project since it is just approval of Services. This proposed activity is therefore not subject to CEQA. Any future action connected to this approval that constitutes a project will be reviewed for compliance with CEQA.

FINANCIAL IMPACT:

Appropriations for these Contracts are included in Budget Control 034, OC Watershed, 78 percent, OC Road Fund 115, four percent and OC Flood Fund 400, 18 percent FY 2023-24, and will be included in the budgeting process for future years.

Funding for the Services is shared among the 36 Permittees. The District will provide 10 percent and the remainder will be divided proportionately among the cities and the County based on land area and population. In turn, the County share is funded out of OC Road, OC Flood, OC Parks and OC Watersheds funds. The resulting shares are as follows:

Cities	75.9%
OC Flood Fund 400	10.0%
OC Watershed Fund 034	4.7%

OC Road Fund 115	4.7%
OC Parks Fund 405	4.7%

The proposed contracts include a provision stating the contracts are subject to, and contingent upon, applicable budgetary appropriations being approved by the Board for each fiscal year during the term of the contracts. If such appropriations are not approved, the contracts may be immediately terminated without penalty to the County.

BACKGROUND INFORMATION:

OC Public Works monitors surface water quality and hydrology in the County of Orange (County) for a wide range of mandated environmental regulatory and public safety programs.

On-Call Environmental Regulations Services (Services) are used to assist OC Public Works in collecting data to assess impacts of stormwater runoff on the health of local watersheds and coastal receiving waters as well as provide public safety notifications and warnings of flooding and debris flows during storm events. To continue efficient and reliable collection of this data, it is necessary to retain Services to supplement staff and provide specialized expertise. The award of Services contracts expedites the process to obtain and utilize needed Services.

On January 24, 2023, OC Public Works issued a Request for Proposals (RFP) for Services. The RFP was advertised on the County online bidding system. A total of seven proposals were received and deemed responsive. On April 6, 2023, the evaluation panel, composed of three evaluators, two from OC Public Works and one from the City of Irvine, completed the evaluation process and provided its recommendations. The Memorandum of Recommendation is included as Attachment G.

OC Public Works is procuring these Services in accordance with the 2021 Contract Policy Manual Section 3.3-102. The Orange County Preference Policy was applicable and incorporated into this solicitation and three qualified proposals were received. Two of the proposals are being considered for contract award.

OC Public Works is recommending Board of Supervisors (Board) approval of contracts for Services for three years, effective upon execution of all necessary signatures or upon Board approval, whichever occurs later, in an aggregate amount not to exceed $3 million, with the option to renew for two additional years upon Board approval with the following contractors:

Contractors	Contracts	Contractors Location
EEC Environmental	MA-080-23011454	Orange County
GEI Consultants, Inc.	MA-080-23011454	Denver, Colorado
Larry Walker Associates, Inc.	MA-080-23011454	Los Angeles County
NV5, Inc.	MA-080-23011454	Los Angeles County
UltraSystems Environmental, Inc.	MA-080-23011454	Orange County

The contractors' respective license numbers were verified as current and active through the Contractors State License Board database on May 30, 2023. Copies of the verifications are on file.

An analysis was conducted to determine the cost/benefit of contracting out versus providing Services in-house. Based on this analysis, OC Public Works has determined that contracting for Services is more cost effective and allows for greater efficiency in providing the Services.

OC Public Works has conducted due diligence on the contractors. Reference checks were satisfactory and completed with the following entities regarding similar Services:

Contractors	Reference	Reference	Reference
EEC Environmental	Orange County Sanitation District	City of Santa Ana	City of Huntington Beach
GEI Consultants, Inc.	City of San Bernardino	County of San Bernardino	Riverside County Flood Control and Water Conservation District
Larry Walker Associates, Inc.	Riverside County Flood Control and Water Conservation District	County of San Diego	California Stormwater Quality Association
NV5, Inc.	Ontario International Airport Authority	Los Angeles World Airport	Port of Long Beach
UltraSystems Environmental, Inc.	City of San Clemente	City of Fontana	Anaheim Regional Transportation Network

The contracts include subcontractors. See Attachment F for information regarding subcontractors and Contract Summary Forms.

Compliance with CEQA: The proposed project is Categorically Exempt (Class 6) from the provisions of CEQA pursuant to CEQA Guidelines Section 15306, because the project includes basic data collection, research and resource evaluation activities which do not result in a serious or major disturbance to an environmental resource.

FINANCIAL IMPACT:

Appropriations for these Contracts are included in Budget Control 034, OC Watershed: 78 percent, OC Road Fund 115, four percent and OC Flood Fund 400, 18 percent FY 2023-24, and will be included in the budgeting process for future years.

Funding for the Services is shared among the 36 Permittees. The District will provide 10 percent and the remainder will be divided proportionately among the cities and the County based on land area and population. In turn, the County share is funded out of OC Road, OC Flood, OC Parks and OC Watersheds funds. The resulting shares are as follows:

Cities	75.9%
OC Flood Fund 400	10.0%
OC Watershed Fund 034	4.7%
OC Road Fund 115	4.7%
OC Parks Fund 405	4.7%

The proposed contracts include a provision stating the contracts are subject to, and contingent upon, applicable budgetary appropriations being approved by the Board for each fiscal year during the term of the contracts. If such appropriations are not approved, the contracts may be immediately terminated without penalty to the County.

Furthermore, the parties specifically agree to waive any and all rights to request that an action be transferred for adjudication to another county.

B. **Entire Contract:** This Contract contains the entire Contract between the parties with respect to the matters herein, and there are no restrictions, promises, warranties or undertakings other than those set forth herein or referred to herein. No exceptions, alternatives, substitutes or revisions are valid or binding on County unless authorized by County in writing. DocuSign Envelope ID: F3324849-40DB-4683-B5F4-97866526FDF6

Such remedies shall be in addition to any other remedies provided by law.

I. **Assignment:** The terms, covenants, and conditions contained herein shall apply to and bind the heirs, successors, executors, administrators and assigns of the parties. Furthermore, neither the performance of this Contract nor any portion thereof may be assigned by Contractor without the express written consent of County. Any attempt by Contractor to assign the performance or any portion thereof of this Contract without the express written consent of County shall be invalid and shall constitute a breach of this Contract.

J. **Non-Discrimination:** In the performance of this Contract, Contractor agrees that it will comply with the requirements of Section 1735 of the California Labor Code and not engage nor permit any subcontractors to engage in discrimination in employment of persons because of the race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, or sex of such persons. Contractor acknowledges that a violation of this provision shall subject Contractor to penalties pursuant to Section 1741 of the California Labor Code.

K. **Termination:** In addition to any other remedies or rights it may have by law, County has the right to immediately terminate this Contract without penalty for cause or after thirty (30) days' written notice without cause, unless otherwise specified. Cause shall be defined as any material breach of contract, any misrepresentation or fraud on the part of the Contractor. Exercise by County of its right to terminate the Contract shall relieve County and District of all further obligation.

In the event of change of control, to the extent necessary, Contractor shall provide reasonably requested assistance in the transferring of services.

L. **Consent to Breach Not Waiver:** No term or provision of this Contract shall be deemed waived and no breach excused, unless such waiver or consent shall be in writing and signed by the party claimed to have waived or consented. Any consent by any party to, or waiver of, a breach by the other, whether express or implied, shall not constitute consent to, waiver of, or excuse for any other different or subsequent breach.

M. **Independent Contractor:** Contractor shall be considered an independent contractor and neither Contractor, its employees, nor anyone working under Contractor shall be considered an agent or an employee of County or District. O. **Insurance Requirements:** Prior to the provision of services under this Contract, the Contractor agrees to purchase all required insurance at Contractor's expense, including all endorsements required herein, necessary to satisfy the County that the insurance provisions of this Contract have been complied with. Contractor agrees to keep such insurance coverage, Certificates of Insurance, and endorsements on deposit with the County during the entire term of this Contract. In addition, all subcontractors performing work on behalf of Contractor pursuant to this Contract shall obtain insurance subject to the same terms and conditions as set forth herein for Contractor.

Contractor shall ensure that all subcontractors performing work on behalf of Contractor pursuant to this Contract shall be covered under Contractor's insurance as an Additional Insured or maintain insurance subject to the same terms and conditions as set forth herein for Contractor. Contractor shall not allow subcontractors to work if subcontractors have less than the level of coverage required by County from Contractor under this Contract. Such proof of insurance must be maintained by Contractor through the entirety of this Contract for inspection by County representative(s) at any reasonable time.

Any self-insured retention ("SIR") in an amount in excess of Fifty Thousand Dollars ($50,000) shall specifically be approved by the County's Risk Manager, or designee, upon review of Contractor's current audited financial report. If Contractor's SIR is approved, Contractor, in addition to, and without limitation of, any other indemnity provision(s) in this Contract, agrees to all of the following:

1) In addition to the duty to indemnify and hold the County harmless against any and all liability, claim, demand or suit resulting from Contractor's, its agents, employee's or subcontractor's performance of this Contract, Contractor shall defend the County at its sole cost and expense with counsel approved by Board of Supervisors against same; and
2) Contractor's duty to defend, as stated above, shall be absolute and irrespective of any duty to indemnify or hold harmless; and
3) The provisions of California Civil Code Section 2860 shall apply to any and all actions to which the duty to defend stated above applies, and the Contractor's SIR provision shall be interpreted as though the Contractor was an insurer and the County was the insured.

If the Contractor fails to maintain insurance acceptable to the County for the full term of this Contract, the County may terminate this Contract.

6. **Breach of Contract:** The failure of the Contractor to comply with any of the provisions, covenants or conditions of this Contract shall be a material breach of this Contract. In such event the County may, and in addition to any other remedies available at law, in equity, or otherwise specified in this Contract:

   a. Terminate the Contract immediately, pursuant to Article K herein;

   b. Afford the Contractor written notice of the breach and ten (10) calendar days or such shorter time that may be specified in this Contract within which to cure the breach;

A. **Governing Law and Venue**: This Contract has been negotiated and executed in the state of California and shall be governed by and construed under the laws of the state of California. In the event of any legal action to enforce or interpret this Contract, the sole and exclusive venue shall be a court of competent jurisdiction located in Orange County, California, and the parties hereto agree to and do hereby submit to the jurisdiction of such court, notwithstanding Code of Civil Procedure Section 394. Furthermore, the parties specifically agree to waive any and all rights to request that an action be transferred for adjudication to another county.

B. **Entire Contract:** This Contract contains the entire Contract between the parties with respect to the matters herein, and there are no restrictions, promises, warranties or undertakings other than those set forth herein or referred to herein. No exceptions, alternatives, substitutes or revisions are valid or binding on County unless authorized by County in writing. If no permit numbers are shown, sales tax will be deducted from payment. The Auditor-Controller will then pay use tax directly to the State of California in lieu of payment of sales tax to the Contractor.

E. **Delivery:** Time of delivery of goods or services is of the essence in this Contract. County and reserves the right to refuse any goods or services and to cancel all or any part of the goods not conforming to applicable specifications, drawings, samples or Fuel Modification, Mowing/Discing, Fire Hazard and Weed Abatements or services that do not conform to the prescribed statement of work. Such remedies shall be in addition to any other remedies provided by law.

Cause shall be defined as any material breach of contract, any misrepresentation or fraud on the part of the Contractor. Exercise by County of its right to terminate the Contract shall relieve County and District of all further obligation.

In the event of change of control, to the extent necessary, Contractor shall provide reasonably requested assistance in the transferring of services.

L. **Consent to Breach Not Waiver:** No term or provision of this Contract shall be deemed waived and no breach excused, unless such waiver or consent shall be in writing and signed by the party claimed to have waived or consented. 3) The provisions of California Civil Code Section 2860 shall apply to any and all actions to which the duty to defend stated above applies, and the Contractor's SIR provision shall be interpreted as though the Contractor was an insurer and the County was the insured.

If the Contractor fails to maintain insurance acceptable to the County for the full term of this Contract, the County may terminate this Contract.

In the event of any legal action to enforce or interpret this Contract, the sole and exclusive venue shall be a court of competent jurisdiction located in Orange County, California, and the parties hereto agree to and do hereby submit to the jurisdiction of such court, notwithstanding Code of Civil Procedure Section 394. Furthermore, the parties specifically agree to waive any and all rights to request that an action be transferred for adjudication to another county.

B. **Entire Contract:** This Contract contains the entire Contract between the parties with respect to the matters herein, and there are no restrictions, promises, warranties or undertakings other than those set forth herein or referred to herein. No exceptions, alternatives, substitutes or revisions are valid or binding on County unless authorized by County in writing. If no permit numbers are shown, sales tax will be deducted from payment. The Auditor-Controller will then pay use tax directly to the State of California in lieu of payment of sales tax to the Contractor.

In the event of change of control, to the extent necessary, Contractor shall provide reasonably requested assistance in the transferring of services.

L. **Consent to Breach Not Waiver:** No term or provision of this Contract shall be deemed waived and no breach excused, unless such waiver or consent shall be in writing and signed by the party claimed to have waived or consented. 3) The provisions of California Civil Code Section 2860 shall apply to any and all actions to which the duty to defend stated above applies, and the Contractor's SIR provision shall be interpreted as though the Contractor was an insurer and the County was the insured.

B. **Entire Contract:** This Contract contains the entire Contract between the parties with respect to the matters herein, and there are no restrictions, promises, warranties or undertakings other than those set forth herein or referred to herein. No exceptions, alternatives, substitutes or revisions are valid or binding on County unless authorized by County in writing. Failure to do so will be considered a material breach of this Contract by Contractor and grounds for immediate Contract termination. Departments or entities making use of the pre-negotiated prices and terms of this Contract are responsible for obtaining all certificates of insurance and bonds required when entering into their own contract. The Contractor is responsible for providing each cooperative entity a copy of the Contract upon request by the cooperative entity. The County of Orange makes no guarantee of usage by other users of this Contract.

    Pending the final resolution of any dispute arising under, related to, or involving this Contract, the Contractor agrees to diligently proceed with the performance of this Contract, including the delivery of goods and/or provision of services. SUMMARY:

Approval of aggregate contracts for On-Call Water Quality and Hydrologic Monitoring and Assessment Services will provide professional services to supplement County of Orange resources for completing projects in a timely manner.

BACKGROUND INFORMATION:

OC Public Works monitors surface water quality and hydrology in the County of Orange (County) for a wide range of mandated environmental regulatory and public safety programs. On-Call Water Quality and Hydrologic Monitoring and Assessment Services (Services) are used to assist OC Public Works in collecting data to assess impacts of stormwater runoff on the health of local watersheds and coastal receiving waters as well as providing public safety notifications and warnings of flooding and debris flows during storm events. To continue efficient and reliable collection of this data, it is necessary to retain Services to supplement staff and provide specialized expertise. The award of Services contracts expedites the process to obtain and utilize needed services.

On January 24, 2023, OC Public Works issued a Request for Proposal (RFP) for Services. The RFP was advertised on the County online bidding system. A total of six proposals were received and deemed responsive. On April 13, 2023, the evaluation panel, comprised of three evaluators from OC Public Works, completed the evaluation process and provided its recommendations. The Memorandum of Recommendation is included as Attachment H.

OC Public Works is procuring these Services in accordance with the 2021 Contract Policy Manual Section 3.3-102. The Orange County Preference Policy was applicable and incorporated into this solicitation and no qualified proposals were received.

OC Public Works is recommending Board of Supervisors (Board) approval of contracts for Services for three years, effective upon execution of all necessary signatures or upon Board approval, whichever occurs later, in an aggregate amount not to exceed $6 million, with the option to renew for two additional years upon Board approval with the following contractors:

Contractors	Contracts	Contractors Location
CWE dba California Watershed Engineering Corporation	MA-080-23010539	Orange County
Tetra Tech, Inc.	MA-080-23010539	Orange County
WSP USA Environment & Infrastructure, Inc.	MA-080-23010539	Orange County
NV5, Inc.	MA-080-23010539	Los Angeles County
Water and Earth Technologies, Inc.	MA-080-23010539	Weld County, Colorado
Michael Baker International, Inc.	MA-080-23010539	Orange County

The contractors' respective license numbers were verified as current and active through the Contractors State License Board database on May 30, 2023. Copies of the verifications are on file.

An analysis was conducted to determine the cost/benefit of contracting out versus providing Services in-house. Based on this analysis, OC Public Works has determined that contracting for Services is more cost effective and allows for greater efficiency in providing the Services.

OC Public Works has conducted due diligence on the contractors. Reference checks were satisfactory and completed with the following entities regarding similar Services:

Contractors	Reference	Reference	Reference
CWE dba California Watershed Engineering Corporation	City of Gardena	County of San Bernardino	City of Monrovia
Tetra Tech, Inc.	City of Malibu	County of Los Angeles	Riverside County Flood Control and Water Conservation District
WSP USA Environment & Infrastructure, Inc.	County of San Diego	City of San Diego	Riverside County Flood Control and Water Conservation District

Water and Earth Technologies, Inc.	San Bernardino County Flood Control District	Ventura County Public Works	Mile High Flood District
Michael Baker International, Inc.	California Department of Transportation	County of San Diego	Southern California Edison

The contracts include subcontractors. See Attachment G for information regarding subcontractors and Contract Summary Forms.

Compliance with CEQA: The proposed project is Categorically Exempt (Class 6) from the provisions of CEQA pursuant to CEQA Guidelines Section 15306, because the project includes basic data collection, research and resource evaluation activities that do not result in a serious or major disturbance to an environmental resource.

FINANCIAL IMPACT:

Appropriations for these Contracts are included in Budget Control 034, OC Watershed, 78 percent, OC Road Fund 115, four percent and OC Flood Fund 400, 18 percent FY 2023-24, and will be included in the budgeting process for future years.

Funding for the Services is shared among the 36 Permittees. The District will provide 10 percent and the remainder will be divided proportionately among the cities and the County based on land area and population. In turn, the County share is funded out of OC Road, OC Flood, OC Parks and OC Watersheds funds. The resulting shares are as follows:

Cities	75.9%
OC Flood Fund 400	10.0%
OC Watershed Fund 034	4.7%
OC Road Fund 115	4.7%
OC Parks Fund 405	4.7%

The proposed contracts include a provision stating the contracts are subject to, and contingent upon, applicable budgetary appropriations being approved by the Board for each fiscal year during the term of the contracts. If such appropriations are not approved, the contracts may be immediately terminated without penalty to the County.

Approve executed Retroactive Contract with Tec-Refresh, Inc. for Palo Alto Premium Support and Maintenance for the term of April 7, 2023, through July 25, 2024, in the not to exceed amount of $964,766.

SUMMARY:

Approval of this Retroactive Contract with Tec-Refresh, Inc. for Palo Alto Premium Support and Maintenance will ensure the safety and security of the Orange County District Attorney's cybersecurity infrastructure, safeguard sensitive data, and ensure comprehensive protection against emerging threats.

BACKGROUND INFORMATION:

The Orange County District Attorney (DA) requires the Palo Alto firewalls to provide security to the DA network environment through its protection of all data traffic both inbound and outbound. These firewalls are needed to ensure the DA network is protected from Ransomware, Malware, and other cybersecurity threats. In addition to the protection the Palo Alto firewalls ensure the safe connection of DA users requiring remote access from home or remote locations that have no direct network connectivity. The remote security

and remote access ensures the DA can continue its operation in the event of business continuity situation like power outages, and natural disasters.

Due to the importance of these firewalls, a requisition was submitted late for procurement of maintenance and support for these firewalls. and the DA executed a retroactive contract with Tec-Refresh, Inc to ensure the continued support and subscriptions are maintained. The DA is now requesting ratification of retroactive Contract MA-026-23011479 with Tec-Refresh, Inc. for the term of April 7, 2023, through July 25, 2024, in the not to exceed amount of $964,766. All support, maintenance and subscriptions have been consolidated to expire on July 25, 2024, under one contract.

This retroactive contract with Tec-Refresh, Inc. is subordinate to the Utah NASPO ValuePoint Master Agreement Number AR2472 and State of California Participating Addendum Number 7-17-70-40-05, which contains insurance provisions and a Limitation of Liability. The County Executive Office/Risk Management has reviewed and approved these terms. A Risk Assessment or Modification of Terms Form is attached as Attachment C.

The Contractor's performance on other projects has been confirmed as at least satisfactory on other contracts. The DA has verified there are no concerns that must be addressed with respect to Contractor's ownership/name, litigation status or conflicts with County interests. The Orange County Preference Policy is not applicable to this Contract.

Subcontractors
This Contract does not include subcontractors, but it is considered a pass through to another provider. See Attachment D for Contract Summary Form.

This Retroactive Contract is being presented to the Board with less than 30 days prior to the July 18, 2023, Board meeting due to the need to avoid a prolonged lapse in payment to the contractor for Palo Alto Premium Support and Maintenance.

FINANCIAL IMPACT:

Appropriations for this Contract are included in the District Attorney's FY 2023-24 Budget for Budget Control 026 and will be included in the budgeting process for future years as needed. This Contract contains language allowing the District Attorney to terminate the Contract or reduce the level of service without penalty with cause or without cause in the event that funding is reduced and/or not available to continue with funding the Contract.

b. Except as otherwise set forth in the Indemnification Paragraphs above, the limit of liability shall be as follows:

iii. Notwithstanding the above, neither the Contractor nor the Purchasing Entity shall be liable for any consequential, indirect or special damages of any kind which may result directly or indirectly from such performance, including, without limitation, damages resulting from loss of use or loss of profit by the Purchasing Entity, the Contractor, or by others.

iv. The limitations of liability in Section 43 will not apply to claims for bodily injury or death as set forth in Section 13, and Section 30 when made applicable under a specific purchase order.

(1) Commercial General Liability covering premises operations, independent contractors, products and completed operations, blanket contractual liability, personal injury (including death), advertising liability, and property damage, with a limit of not less than $1 million per occurrence/$3 million general aggregate;

(4) Professional Liability. As applicable, Professional Liability Insurance Policy in the minimum amount of $1,000,000 per occurrence and $1,000,000 in the aggregate, written on an occurrence form that provides coverage for its work undertaken pursuant to each Participating Addendum.

c. Contractor shall pay premiums on all insurance policies. Such policies shall also reference this Master Agreement and shall have a condition that they not be revoked by the insurer until thirty (30) calendar days after notice of intended revocation thereof shall have been given to Purchasing Entity and Participating Entity by the Contractor.

d. Prior to commencement of performance, Contractor shall provide to the Lead State a written endorsement to the Contractor's general liability insurance policy or other documentary evidence acceptable to the Lead State that (1) names the Participating States identified in the Request for Proposal as additional insureds, (2) provides that no material alteration, cancellation, non-renewal, or expiration of the coverage contained in such policy shall have effect unless the named Participating State has been given at least thirty (30) days prior written notice, and (3) provides that the Contractor's liability insurance policy shall be primary, with any liability insurance of any Participating State as secondary and noncontributory. Unless otherwise agreed in any Participating Addendum, the Participating Entity's rights and Contractor's obligations are the same as those specified in the first sentence of this subsection. Before performance of any Purchase Order issued after execution of a Participating Addendum authorizing it, the Contractor shall provide to a Purchasing Entity or Participating Entity who requests it the same information described in this subsection.

e. Contractor shall furnish to the Lead State, Participating Entity, and, on request, the Purchasing Entity copies of certificates of all required insurance within thirty (30) calendar days of the execution of this Master Agreement, the execution of a Participating Addendum, or the Purchase Order's effective date and prior to performing any work. Copies of renewal certificates of all required insurance shall be furnished within thirty (30) days after any renewal date. These certificates of insurance must expressly indicate compliance with each and every insurance requirement specified in this section. Failure to provide evidence of coverage

may, at sole option of the Lead State, or any Participating Entity, result in this Master Agreement's termination or the termination of any Participating Addendum.

f. Coverage and limits shall not limit Contractor's liability and obligations under this Master Agreement, any Participating Addendum, or any Purchase Order.

17. Laws and Regulations: Any and all Services offered and furnished shall comply fully with all applicable Federal and State laws and regulations.

The federal and state laws, regulations, policies, standards, and guidelines that Contractors doing business with the Participating Entities must be aware of, include, but not limited to: Criminal Justice Information Services (CJIS) Security Policy; Federal Educational Rights and Privacy Act (FERPA); Federal Information Security Management Act (FISMA); National Institute of Technology Standards; Gramm-Leach-Bliley Act (GLB) Act; Health Insurance Portability and Accountability Act (HIPAA); Health Information Technology for Economic and Clinical Health Act (HITECH); IRS Publication 1075; Payment Card Industry Data Security Standard (PCI DSS); Sarbanes-Oxley Act (SOX); Electronic Communications Privacy Act, Stored Communications Act and the PATRIOT Act. The list is intentionally United States-centric, and is not intended to be all-inclusive. Further, since laws, regulations, requirements and industry guidelines change, consulting definitive sources to assure a clear understanding of compliance requirements is critical. Many State Entities have additional program compliance requirements that must be considered in addressing compliance. (e.g., DMV Privacy Act, Public Service Law, etc.).

20. Participants and Scope

a. Contractor may not deliver Services under this Master Agreement until a Participating Addendum acceptable to the Participating Entity and Contractor is executed. The NASPO ValuePoint Master Agreement Terms and Conditions are applicable to any Order by a Participating Entity (and other Purchasing Entities covered by their Participating Addendum), except to the extent altered, modified, supplemented or amended by a Participating Addendum. By way of illustration and not limitation, this authority may apply to unique delivery and invoicing requirements, confidentiality requirements, defaults on Orders, governing law and venue relating to Orders by a Participating Entity, indemnification, and insurance requirements. Statutory or constitutional requirements relating to availability of funds may require specific language in some Participating Addenda in order to comply with applicable law. The expectation is that these alterations, modifications, supplements, or amendments will be addressed in the Participating Addendum or, with the consent of the Purchasing Entity and Contractor, may be included in the ordering document (e.g. purchase order or contract) used by the Purchasing Entity to place the Order.

b. Subject to subsection 20c and a Participating Entity's Participating Addendum, the use of specific NASPO ValuePoint cooperative Master Agreements by state agencies, political subdivisions and other Participating Entities (including cooperatives) authorized

by individual state's statutes to use state contracts is subject to the approval of the respective State Chief Procurement Official.

c. Unless otherwise stipulated in a Participating Entity's Participating Addendum, specific services accessed through the NASPO ValuePoint cooperative Master Agreements for Cloud Services by state executive branch agencies, as required by a Participating Entity's statutes, are subject to the authority and approval of the Participating Entity's Chief Information Officer's Office[3].

d. Obligations under this Master Agreement are limited to those Participating Entities who have signed a Participating Addendum and Purchasing Entities within the scope of those Participating Addenda. Financial obligations of Participating States are limited to the orders placed by the departments or other state agencies and institutions having available funds. Participating States incur no financial obligations on behalf of political subdivisions.

e. NASPO ValuePoint is not a party to the Master Agreement. It is a nonprofit cooperative purchasing organization assisting states in administering the NASPO ValuePoint cooperative purchasing program for state government departments, institutions, agencies and political subdivisions (e.g., colleges, school districts, counties, cities, etc.) for all 50 states, the District of Columbia and the territories of the United States.

f. Participating Addenda shall not be construed to amend the terms of this Master Agreement between the Lead State and Contractor.

g. Participating Entities who are not states may under some circumstances sign their own Participating Addendum, subject to the approval of participation by the Chief Procurement Official of the state where the Participating Entity is located. Coordinate requests for such participation through NASPO ValuePoint. Any permission to participate through execution of a Participating Addendum is not a determination that procurement authority exists in the Participating Entity; they must ensure that they have the requisite procurement authority to execute a Participating Addendum.

h. Resale. Subject to any explicit permission in a Participating Addendum, Purchasing Entities may not resell goods, software, or Services obtained under this Master Agreement. This limitation does not prohibit: payments by employees of a Purchasing Entity as explicitly permitted under this agreement; sales of goods to the general public as surplus property; and fees associated with inventory transactions with other governmental or nonprofit entities under cooperative agreements and consistent with a Purchasing Entity's laws and regulations. Any sale or transfer permitted by this

[3] Chief Information Officer means the individual designated by the Governor with Executive Branch, enterprise-wide responsibility for the leadership and management of information technology resources of a state.

subsection must be consistent with license rights granted for use of intellectual property.

22. Data Access Controls: Contractor will provide access to Purchasing Entity's Data only to those Contractor employees, contractors and subcontractors ("Contractor Staff") who need to access the Data to fulfill Contractor's obligations under this Agreement. Contractor shall not access a Purchasing Entity's user accounts or Data, except on the course of data center operations, response to service or technical issues, as required by the express terms of this Master Agreement, or at a Purchasing Entity's written request.

Contractor may not share a Purchasing Entity's Data with its parent corporation, other affiliates, or any other third party without the Purchasing Entity's express written consent.

Contractor will ensure that, prior to being granted access to the Data, Contractor Staff who perform work under this Agreement have successfully completed annual instruction of a nature sufficient to enable them to effectively comply with all Data protection provisions of this Agreement; and possess all qualifications appropriate to the nature of the employees' duties and the sensitivity of the Data they will be handling.

23. Operations Management: Contractor shall maintain the administrative, physical, technical, and procedural infrastructure associated with the provision of the Product in a manner that is, at all times during the term of this Master Agreement, at a level equal to or more stringent than those specified in the Solicitation. Contractor must maintain any certifications required under the Solicitation.

24. Public Information: This Master Agreement and all related documents are subject to disclosure pursuant to the Purchasing Entity's public information laws.

26. Records Administration and Audit.

a. The Contractor shall maintain books, records, documents, and other evidence pertaining to this Master Agreement and orders placed by Purchasing Entities under it to the extent and in such detail as shall adequately reflect performance and administration of payments and fees. Contractor shall permit the Lead State, a Participating Entity, a Purchasing Entity, the federal government (including its grant awarding entities and the U.S. Comptroller General), and any other duly authorized agent of a governmental agency, to audit, inspect, examine, copy and/or transcribe Contractor's books, documents, papers and records directly pertinent to this Master Agreement or orders placed by a Purchasing Entity under it for the purpose of making audits, examinations, excerpts, and transcriptions. This right shall survive for a period of six (6) years following termination of this Agreement or final payment for any order placed by a Purchasing Entity against this Agreement, whichever is later, to assure compliance with the terms hereof or to evaluate performance hereunder.

b. Without limiting any other remedy available to any governmental entity, the

Contractor shall reimburse the applicable Lead State, Participating Entity, or Purchasing Entity for any overpayments inconsistent with the terms of the Master Agreement or orders or underpayment of fees found as a result of the examination of the Contractor's records.

c. The rights and obligations herein exist in addition to any quality assurance obligation in the Master Agreement requiring the Contractor to self-audit contract obligations and that permits the Lead State to review compliance with those obligations.

d. The Contractor shall allow the Purchasing Entity to audit conformance to the Master Agreement and applicable Participating Addendum terms. The purchasing entity may perform this audit or contract with a third party at its discretion and at the purchasing entity's expense.

27. Administrative Fees: The Contractor shall pay to NASPO ValuePoint, or its assignee, a NASPO ValuePoint Administrative Fee of one-quarter of one percent (0.25% or 0.0025) no later than 60 days following the end of each calendar quarter. The NASPO ValuePoint Administrative Fee shall be submitted quarterly and is based on sales of the Services. The NASPO ValuePoint Administrative Fee is not negotiable. This fee is to be included as part of the pricing submitted with proposal.

Additionally, some states may require an additional administrative fee be paid directly to the state on purchases made by Purchasing Entities within that state. For all such requests, the fee level, payment method and schedule for such reports and payments will be incorporated into the Participating Addendum that is made a part of the Master Agreement. The Contractor may adjust the Master Agreement pricing accordingly for purchases made by Purchasing Entities within the jurisdiction of the state. All such agreements shall not affect the NASPO ValuePoint Administrative Fee percentage or the prices paid by the Purchasing Entities outside the jurisdiction of the state requesting the additional fee. The NASPO ValuePoint Administrative Fee shall be based on the gross amount of all sales at the adjusted prices (if any) in Participating Addenda.

28. System Failure or Damage: In the event of system failure or damage caused by Contractor or its Services, the Contractor agrees to use its best efforts to restore or assist in restoring the system to operational capacity.

29. Title to Product: If access to the Product requires an application program interface (API), Contractor shall convey to Purchasing Entity an irrevocable and perpetual license to use the API.
